CASH BALANCES FALSIFIED TO HIDE RAIL STOCK DEALS

Missouri Pacific Treasurer Admits Giving Untrue Figures to Prevent Rise of Prices.

DISCUSSED COURSE WITH BALDWIN

O. P. Van Sweringen Says He Had Right to Invest Road's Funds as Board Chairman.

By the Associated Press.

CLEVELAND, O., Nov. 21.—William Dyer treasurer of the Missouri Pacific Railroad, said today at a deposition hearing that in the course of a Missouri Pacific purchasing program in 1933 he submitted to F. B. Johnson, chief auditor for the Missouri Pacific Transportation Co., untrue cash balance statements.

Wyer said that during the period of stock purchasing monthly cash balances sent to the auditor's office did not reflect these purchases and were "untrue balances."

"When the program first started," Wyer said, "I was told that it should be handled in such a way that the knowledge should not reach the hands of persons who should be handled in such a way that the knowledge should not reach the hands of persons who should not have it, because if the information reached the wrong hands of these same purchases of stock it would result in a material increase of price."

Wyer added that he had discussed the stock buying program and its progress with L. W. Baldwin, president of the railroad.

O. P. Van Sweringen testified today that as chairman of the board of the Missouri Pacific Railroad he had authority to make investments and said he had never instructed the road's assistant treasurer to keep any bond or stock transactions secret from the St. Louis general office.

The rail magnate testified at a deposition hearing before Special Master Marion C. Early, ordered by United States Circuit Court Judge Farris of St. Louis, where bankruptcy proceedings intended to effect reorganization of the railroad are pending.

Fred L. English, co-counsel for trustee of the road, questioned Van Sweringen about his purchase of nearly \$1,000,000 of bonds of the International & Great Northern Railroad, another Van Sweringen property.

"It was carried on in the regular order," he replied. "The chairman had the authority to make investments." The by-laws vested this authority in the chairman, he said, explaining that the bonds were purchased by the Missouri Pacific Transportation Co. with funds advanced by the Missouri Pacific Railroad.

He said records of these companies contained resolutions authorizing their respective boards to make and accept the advance.

Asked whether he reported purchases of the bonds to the directors, Van Sweringen said: "I cannot recall. I wouldn't have had any reluctance about doing it. I'm sure of that. That bordered on the rule."

"Did you instruct Mr. Wyer (assistant treasurer) to keep these transactions secret from the St. Louis office?" asked English. "No," Van Sweringen responded.

English announced that he had completed his examination of the board chairman.

FAIR TONIGHT AND TOMORROW;
COLDER TONIGHT, DOWN TO 34

THE TEMPERATURES.

Two Michigan Men Accused of Plot to Seditious Political Funds From U. S. Employees.

GRAND RAPIDS, Mich., Nov. 21.—George Foukles, former Democratic Congressman from the Fourth Michigan District, and Dan J. Geron, a member of the Michigan Democratic Central Committee, were convicted in United States District Court today of conspiracy to "assess" postmasters for political contributions.

The maximum penalty possible on the charge is \$10,000 fine and two years' imprisonment, or both.

Foukles served one term in Congress and was defeated for re-election in 1934.

Woman Finds \$4350 in Gutter.
NEW YORK, Nov. 21.—Mrs. Anne O'Sullivan, wife of a policeman, found \$4350 in a gutter—\$50 bills in a rain-soaked envelope—yesterday. She and her husband turned the money over to the police.

Official forecast for St. Louis and vicinity: Fair tonight and tomorrow; colder tonight; lowest temperature about 34.

Missouri: Generally fair tonight and tomorrow; slightly warmer tomorrow afternoon in extreme northwest portion.

Illinois: Generally fair tonight and tomorrow; cold tonight.

Sunset, 4:43; sunrise (tomorrow), 6:52.

STRATOSPHERE BAG BEAT OLD RECORD NEARLY TWO MILES

Altitude Mark, Certified by Aeronautic Society 72,395 Feet.

By the Associated Press.
WASHINGTON, Nov. 21.—A new international altitude record of 72,395 feet was set on Nov. 11 by the National Geographic Society-Army Air Corps balloon Explorer II. Capt. A. W. Stevens and Capt. Orville A. Anderson made the ascent from Rapid City, N. D.

This mark was certified as official today by the National Aeronautic Association. It exceeds by 11,158 feet the old record of 61,237 feet set by Lieutenant-Commander T. G. W. Settle and Major Chester Fordney, Nov. 20, 1933, at Akron, O. It also exceeds the unofficial world mark of 72,200 feet set by three Russian balloonists in 1934, their record never having been verified because the balloon crashed on its descent, killing the crew and smashing most of its instruments.

BRITISH FLEET MANEUVERS, EGYPTIAN OFFICIALS GUESTS

Impressive Display in Eastern Mediterranean: Target Practice By Battleships.

ALEXANDRIA, Egypt, Nov. 21.—Great Britain presented its naval might today in some of the most impressive maneuvers ever seen in the Eastern Mediterranean.

The display was an entertainment for Egyptian officials and other guests. Prince Mohammed Ali and Nessim Pasha, Premier, and other members of the Cabinet watched the fleet's exercises.

The maneuvers began with a dash of 18 destroyers 15 miles into the open sea, laying a smoke screen. The cruiser Ajax led a battle squadron of five battleships, six more cruisers and two aircraft carriers.

In the battleship's target practice 20 tons of steel were hurled in each salvo against targets 11 miles distant.

ROOSEVELT ON SPECIAL TRAIN ON WAY TO WARM SPRINGS

President to Spend Thanksgiving at His Cabin on Georgia Mountain.

ATLANTA, Nov. 21.—President Roosevelt passed through Atlanta shortly after 1 p. m. today, on his special train to spend a Thanksgiving vacation at Warm Springs. The train stopped here just long enough to change locomotives.

He has invited Budget Director Bell and Chairman Buchanan of the House Appropriations Committee to Warm Springs next Monday to go over the budget figures for the year starting July 1.

On Nov. 29 at Atlanta the President will be the guest at a welcome home celebration to which he was invited by the Georgia Congressional delegation.

A secretarial staff accompanied the President as usual and temporary offices will be established in Warm Springs.

TALMADGE ASSAILED NEW DEAL AS ROOSEVELT ENTERS STATE

Says Churches Are Barred From Norris, Tenn., TVA Town: Communism Against Them.

By the Associated Press.

PEMBROKE, Ga., Nov. 21.—Gov. Talmadge renewed his attack on the national administration in a speech near here today as President Roosevelt arrived in Georgia for a Thanksgiving vacation.

Addressing a rally at Jenkins Bridge, in Southeastern Georgia, the Governor said the Government wasted taxpayers' money in "teaching ballet dancing and the like." He urged removal of the Federal income tax.

Talmadge declared that "in Norris, Tenn.," the Tennessee Valley authority town, "they won't allow a church to be built in the town." "You preachers check up on that," he shouted. "The reason is the church is at cross purposes with communism."

No Talk About Street Names?

The jurors smiled and one laughed when Lucy produced a list of Centerville's streets and called off their names. The witness, obviously astonished, said, "Why, Mister, I don't know the names of the streets here. There is never any talk about street names around here. We never go by names. It's down to Jim's or Uncle Frank's."

Lucy, a plain-looking, intense, shirt open to the collar, shelves rolled to the elbow, insisted in the face of the cross-examination that Hunter never raised his shotgun from the crook of his arm. Handing the weapon to Lucy, he wrenched it from his grasp to illustrate, he said, the way Dr. Prytle worked it.

Widow of deceased, Intense, shirt open to the collar, shelves rolled to the elbow, insisted in the face of the cross-examination that Hunter never raised his shotgun from the crook of his arm. Handing the weapon to Lucy, he wrenched it from his grasp to illustrate, he said, the way Dr. Prytle worked it.

Fridley testified that he worked for the company at Klondike, until 1926, when he quit and went to work as a M.-K.-T. railroad section hand. He said he became ill in June, 1932, and was for a short time in the railroad's hospital at Parsons, Kan.

When he was asked about his acquaintance with Poe, repeated objections were made, and were argued at length by Cullen, and by Hullverson himself. They contend that as Fridley's name had not appeared on the complaint, they had no opportunity to prepare to meet his testimony. They cited also the Supreme Court's action in striking out the words "and others" following Poe's name, in the charge as to solicitation.

Frank Hollingsworth, counsel for the Bar Committee, argued that as Poe was alleged to have engaged in solicitation, testimony from any person as to such solicitation was admissible. Commissioner Farrington, after hearing a 50-minute argument, ruled that Fridley should tell his acquaintance with Poe.

Ruling on Opening Plea.

Before the defense made its opening statement, deferred at the opening of the trial, Judge Smith instructed the jury to disregard assertions made by the prosecution in

DEFENSE ASSERTS PROSECUTOR FIRED TO SAVE HIS LIFE

Contends He Grabbed Ruel Hunter's Shotgun With One Hand and Then Drew Revolver.

ACCUSED MAN TO TAKE STAND

Barber Identifies Weapon As One That He Lent to Victim On Evening of Shooting.

By a Staff Correspondent of the Post-Dispatch.

CENTERVILLE, Mo., Nov. 21.—The trial of Joseph L. Huett, 62, a former Prosecuting Attorney of Reynolds County, charged with murder in the shooting of Ruel Hunter, neared its conclusion today. Defense counsel who opened their case late yesterday, announced they would call only a few witnesses, including Huett, who, they maintain, fired on Hunter in self-defense the night of Aug. 1.

Judge W. L. Welch, presiding Judge of the Reynolds County Court, testified today Hunter rode to town with him on the day of the shooting. He said that Hunter left, after meeting Huett, and returned with a shotgun. The Judge said he heard his automobile and saw Huett shoot Hunter.

Charles Boikin was hesitant to testify, contending he was intoxicated on the day of the killing.

No attempt has been made since testimony began Tuesday, to deny that the Prosecutor shot Hunter, but the State has contended he was the aggressor, the defense that he fired in self-defense.

Questioned on Men Who Died.

Patrick H. Cullen, defense lawyer, took up in cross-examination the remark of Fluehsmeier, that he knew everybody employed at the Klondike plant. Giving a man's name, Cullen asked:

"Do you know him?" "Yes," said the witness.

"He worked in the pit at Klondike?" "Yes."

"And he died?" "Yes."

"Did you know (another man named)?" "Yes."

"He worked in the same pit?" "Yes."

"And he went from the pit to his grave?" "Well, he's dead."

The question was repeated as to another man, "a big, strapping fellow, wasn't he?" and again it was brought out that death had ended the man's employment in the pit.

Soliciting of Suits Alleged.

Two clients of Hullverson, former employees of the Tavern Rock Sand Co., testified at the morning session. This was the sixth day of the hearings before John S. Farrington, Special Commissioner for the Supreme Court in the Civil Courts Building.

Hullverson, Fridley, Eugene J. Schmidk and Francis O'Curnan are charged by the Bar Committee of the Eighth (St. Louis) Judicial Circuit with soliciting suits, compelling runners and splitting fees with them, paying medical and other expenses of litigants, and directing clients to feign illness and give false testimony.

The first witness of the day, Harvey H. Fridley of Matson, Mo., testified that Robert A. Poe, non-lawyer employee of Hullverson's office, a year or more ago, solicited him to file suit against the Tavern Rock Sand Co., for which he worked at 1925-26, alleging injuries from silicosis. He said that before talking with Poe, he had not thought of filing suit.

Worked at Sand Mill.

Fridley testified that he worked for the company at Klondike, until 1926, when he quit and went to work as a M.-K.-T. railroad section hand. He said he became ill in June, 1932, and was for a short time in the railroad's hospital at Parsons, Kan.

When he was asked about his acquaintance with Poe, repeated objections were made, and were argued at length by Cullen, and by Hullverson himself. They contend that as Fridley's name had not appeared on the complaint, they had no opportunity to prepare to meet his testimony. Augusta (Mo.) Tavern Keeper Says He Refused Offer to Help R. L. Pribble Meet Sand Pit Men.

QUESTIONED ABOUT WORKERS WHO DIED

H. H. Fridley Says R. A. Poe Suggested He File Action Alleging Injury From Silicosis.

By the Associated Press.

AKRON, O., Nov. 21.—Strike sympathizers at the Ohio Insulator plant in Barberton drove 50 guards inside the factory with a shower of stones and bottles early today.

Tear gas bombs and fire hose were used by the guards before they retreated. A factory gate house was demolished by the crowd.

After the guards had fallen back, the crowd dwindled to a few hundred strike sympathizers. Two arrests were made and two assailants reported. A 7-year-old boy was treated for tear gas by a tear gas shell and a woman was treated for the effects of gas.

The Barberton Central Labor Union sent a general strike ultimatum to the Barberton Chamber of Commerce to become effective if Sheriff's deputies resumed the use of gas.

A succession of outbreaks yesterday and last night followed an attempt by the company to admit former employees to the plant and resume work. A strike, called by the Pottery Workers' Union, has been in progress since Sept. 17.

Sheriff James Flower said peace efforts failed at a conference late last night, attended by himself, Mayor Al Davis and a committee of 20 strikers.

The committee asserted most of the stone-throwing at the plant was done by "hoodlums" and youths not affiliated with the union.

The brief contended the millers' legal remedy was to "pay first and litigate later." It argued:

"To the extent that petitioners may be collecting from their customers the amount of any processing taxes retained and not paid by petitioners would, in fact, constitute unjust enrichment."

Flower said he refused to agree to a demand that all persons be kept from entering the building.

"The only persons going into the factory," he said, "are former company employees who want to return to work. As long as they want to work we'll let them."

The strike was called after demands for a 20 per cent wage increase, an eight-hour day and time and a half for overtime had been refused. The company contended that the average rate of pay was higher than prevailing rates in the industry and above the 1929 wage level.

SOVIET PLANES UP 8 MILES IN STRATOSPHERE, PILOT SAYS

Moscow Aviator Claims Record for Attitude in Equipment of This Type.

By the Associated Press.

MOSCOW, Nov. 21.—A Soviet pilot today established a new altitude record of more than eight miles for an airplane stratosphere flight, according to official claim made at the conclusion of the flight.

DOCTORS DISCUSS SPECIAL WORK AT GROUP MEETING

14 Such Sessions Being Held by Delegates at Convention of Southern Medical Association.

DR. FRED HODGES NAMED PRESIDENT

He Is Radiologist of Richmond, Va.—Registration Reaches 2900 Total on the Third Day.

Fourteen groups of physicians, each devoted to a specialized branch of medicine or surgery, held meetings today in connection with the Southern Medical Association convention at Municipal Auditorium, now in its third day. About 2000 persons are registered at the convention, including physicians, their wives and medical students.

In a general session at Hotel Jefferson last night, Dr. Fred M. Hodges, radiologist of Richmond, Va., was elected president for the coming year. Dr. Quitman U. Newell, associate professor of obstetrics and gynecology at Washington University School of Medicine, was chosen first vice-president, and Dr. W. E. Knighton, Shreveport (La.) internist, second vice-president.

The retiring president, Dr. H. Marshall Taylor of Jacksonville, Fla., made an address on air conditioning as relating to health, telling how Dr. John Gourie, Florida physician, first made artificial ice and planned air conditioning in 1880 while seeking to cut down yellow fever and malaria in the area by reducing temperatures.

Manufactured weather is becoming more and more an asset as a health measure, he said. "Air conditioning" he went on, "cleans the air, removing dust, dirt, bacteria and pollen. It route winter ailments resulting from drafts and prevents irritation of the membranes of the nose and throat caused by dried-out air. Sufferers from allergic diseases find it a source of real relief. It is steadily gaining its place as a factor lessening the incidence of respiratory diseases. It increases immeasurably the chances for life of infants born prematurely."

TALK ON EMOTIONAL FACTOR IN DISEASE

Dr. James S. McLester of Birmingham, Ala., president of the American Medical Association, spoke at a medical session, "The Emotional Factor in Disease." He said he has been "no little perturbed to witness in recent years a great increase in the proportion of thoroughly miserable patients whose discomforts and unhappiness appear to be of emotional origin."

"In many instances," he related, "such persons already have consulted a number of physicians. By some they have been treated as if they had genuine disease, whereas others they have been dismissed after scant consideration. In both instances the physician has been wrong, for there is no recognized organic disease, and there is indeed a great deal the matter."

Dr. McLester said he thought such patients were born neurotics, and that their complaints often are the expression of a genuine physical disturbance. He advised physicians to take the histories of such patients with care and sympathy to reach the true nature of the disability. Diet advice and small quantities of sedatives to rest the nerves sometimes help, he said.

The patient should be taught to develop a "don't care" feeling and disregard his ailments, Dr. McLester said.

To give special courses in operating for students in medical school is futile, Dr. Dean Lewis of the Johns Hopkins University School of Medicine told the section of medical education. It is much more important, he thought, to enlighten the students by general lectures on surgery as to when an operation is necessary, discussing only the simplest operative manipulations, and the technique of common emergency operations—how to remove an appendix, repair a hernia, perform an intestinal resection, to repair a tendon, remove and reduce a fracture. "All else had better be left to later special study in the surgical wards," he said.

MORE HIGH BLOOD PRESSURE CASES

High blood pressure cases are on the increase, Drs. Leonard Meridell and I. W. Cooper of Meridian, Miss., said in a paper read before the group on railroad surgery. Doctors should impress patients with the necessity of periodic examinations for it, particularly after middle life, they said. The blood pressure of Negroes might be much more immune to rabies than whites were presented by Drs. J. N. Baker, James G. McAlpine and J. D. Dowling, health officers of Alabama. "Answers to

Associated Press Wirephoto.

questionnaires received from more than 6000 persons who developed rabies from dog bites in the State during recent years revealed 10 who were even on Negroes. Thus, though the proportion of whites to Negroes is not quite two to one, the death rate from the disease for the past 10 years showed whites and Negroes stricken in proportion, however.

Not only has there been a marked increase in the number of cases of malaria during recent years, but the parasite has extended into states hitherto comparatively free from it, Dr. W. Pierre Robert of Vicksburg, Miss., said in a paper read before the pediatric section. In Vicksburg, malaria is present the entire year, and twice as many Negroes have it as whites, in proportion to population. Quinine in large doses is the safest drug to use in cases attacking children, he said.

A short time before, Dr. Shaler Richardson of Jacksonville, Fla., had told the section on ophthalmology that eye complications occasionally arise from the administration of quinine or other derivatives of cinchona, and recommended that their use be discontinued at once in any case where eye ailments begin to develop. He said there have been 200 cases of amblyopia ascribable to quinine recorded in medical literature since 1841, and cited nine cases he treated where he believed blindness or poor sight was due to the taking of quinine. In two of them, children were born blind after the mother took large quinine doses shortly before childbirth.

"In many instances," he related, "such persons already have consulted a number of physicians. By some they have been treated as if they had genuine disease, whereas others they have been dismissed after scant consideration. In both instances the physician has been wrong, for there is no recognized organic disease, and there is indeed a great deal the matter."

In both instances the physician has been wrong, for there is no recognized organic disease, and there is indeed a great deal the matter."

Dr. James S. McLester of Birmingham, Ala., president of the American Medical Association, spoke at a medical session, "The Emotional Factor in Disease." He said he has been "no little perturbed to witness in recent years a great increase in the proportion of thoroughly miserable patients whose discomforts and unhappiness appear to be of emotional origin."

"In many instances," he related, "such persons already have consulted a number of physicians. By some they have been treated as if they had genuine disease, whereas others they have been dismissed after scant consideration. In both instances the physician has been wrong, for there is no recognized organic disease, and there is indeed a great deal the matter."

CHARITIES GOAL 46 PCT. PLEDGED; ONE WEEK TO GO

Solicitors Report Subscriptions Totaling \$1,321,305 Two Teams Have Exceeded Their Quotas.

The United Charities campaign entered its final week today with subscriptions totaling \$1,321,305, or 46 per cent of the \$2,850,000 sought. Another report meeting of solicitors will be held tomorrow at Hotel Statler.

So far the larger subscriptions division has raised \$971,300; the group, or employee division, \$236,700, and the general division \$113,300.

Two teams of solicitors reported at yesterday's meeting that they had exceeded their quotas. These teams, captained by Roman J. Gleich and Mrs. A. Lazarus, were the first to accomplish that. Gleich's team, in the Tower Grove district, reached 123 per cent of its quota, and Mrs. Lazarus, in University City, 142 per cent.

Superintendent of Schools Henry J. Gerling reported gifts so far made by employees of the public schools totaled \$57,712. He said the school unit, when subscription was completed, would probably raise about \$85,000, including the gifts of employees of private schools and those in the county.

A contribution of \$35,943 by 3124 employees of Famous-Barr Dry Goods Co. was announced yesterday by Eugene C. H. Hart, chairman of the group division. This did not include the gift of the company. Other reports in the group division included \$1381 for 252 employees of the Cupples-Hesse Envelope Co., and \$4830 for 994 employees of the Carter Carburetor Co.

Campaign Chairman Oliver F. Richards asked donors to beware of fraudulent solicitors. Each authorized solicitor, he said, wears a badge inscribed with the insignia of United Charities, and carries a card, signed by Richards and the chairman of the division in which the solicitor is enrolled, and bearing the name of the solicitor.

BONDHOLDERS' AGENTS PICKED AS FIRM FAILED

President of Fidelity Co. Helped Lawyers Select Protective Committee Before Receivership.

MEMBERS HELD NONE OF SECURITIES

Two Congressmen of House Group Open Hearing in St. Louis on Results of Bankruptcies.

Testimony before a congressional committee today disclosed that two days before the Fidelity Bond and Mortgage Co. went into receivership Nov. 30, 1931, its president, J. U. Menter, consulted with lawyers who picked in advance the members of a committee that was to be organized to represent owners of some \$12,000,000 of real estate mortgage bonds the company had sold.

At the same time, the testimony showed, Menter turned over to Abraham Pritzker, a Chicago lawyer, the firm's list of the 6000 customers to whom it had sold bonds, and Pritzker shipped the list to Chicago in a trunk. Preceding this information by a few hours, Menter had borrowed \$2200 from Pritzker to meet the company's bank clearance.

Testified as "Front" — "We don't want to harass anyone," Representative O'Malley said, "but unfortunately our inquiry in other cities has disclosed that sometimes conniving lawyers and houses of issue have used outstanding citizens as a committee, or front, while behind the scenes they were milking the investors. And the bar associations have not done anything to cause some of them to blink."

Block assured the Congressman that the committee of which he was a member had given a great deal of time to management of securities and properties involved in the Fidelity company's failure.

Protested Against High Fees.

The hearing, being held at the new Federal Building, is a continuation of the congressional inquiry into the causes and results of the collapse of real estate mortgage bonds—one of the major financial catastrophes of the depression.

Members of a House Committee conducting the hearing are Representatives Everett M. Dirksen (Rep.), Pekin, Ill., and Thomas O'Malley (Dem.), Milwaukee, Wis.

The committee's chairman, Adolph J. Sabath (Dem.), Chicago, was not present. Joseph A. Lennon, former Assistant Circuit Attorney, is local counsel for the investigating committee.

FOR TELEPHONE ORDERS CALL CENTRAL 9449

MAYORS URGE RELIEF PROGRAM EXTENSION

Conference Calls for New Fed-
eral Appropriations, "Adequate" State Contributions.

By the Associated Press.
WASHINGTON, Nov. 21.—New Federal relief appropriations and "adequate" State contributions were urged by the conference of Mayors

The conference voted to ask Congress for enough cash "to meet a planned and comprehensive program for relief work and direct aid to meet the unemployment situation" through the fiscal year 1936-37.

Such a program would extend Federal relief activities, including the dole, at least to June 30, 1937. The present relief program, as projected by White House statements, is for a virtual end to direct relief by Dec. 1, and expenditure of all but \$900,000,000 of the \$4,000,000,000 works appropriation by next June 30.

The group emphasized the necessity of appropriating funds for the 1936-37 fiscal year as soon as possible. "It is essential from experience that greater efficiency can be obtained and economy effected by a longer-range program for relief work instead of month-to-month allocations." They urged that such allotments be planned to synchronize with city budget periods.

The conference stressed the importance of the social security program. Its demand that pressure be brought on states to aid in relief included a paragraph that Mayors should negotiate with their Governor and State legislators "to obtain the necessary legislation to come with the purview, scope and benefit of the national security law, and adopt such uniform law as may be suggested by the Social Security Board in keeping with the statutes." A general resolution said the Federal relief program should be continued, "particularly pending such time as adequate national security measures will become effective."

The Mayors advocated inclusion of municipal employees under the old-age pension plan, pledged their co-operation with the Justice Department and with each other in curbing crime, proposed continuation of Federal relief for transients, and advocated a low cost housing program "substantially financed" by the Federal Government but administered locally.

WASHINGTON SCHOOL BOARD VOTES TEXTBOOK INQUIRY

To Decide if There Are Any Com-
munist Passages, as Has
Been Charged.

By the Associated Press.

WASHINGTON, Nov. 21.—As a result of charges of Communistic teachings in schools here, the Board of Education called yesterday for examination of all textbooks.

Members of the Federation of Citizens' Associations criticized three textbooks and eight other volumes recommended in senior high schools for what they declared were passages written by "well-known Communistic" writers. George E. Sullivan, Federation president, demanded that the school board determine who was responsible for introduction of the books.

WOMAN IN 'WIFE SWAPPING' CASE DROPS THREE SUITS

Actions by Mrs. Leah Seell Followed
Divorce suit by Mr. and
Mrs. Walter Emerson.
LOS ANGELES, Nov. 21.—Suits
involving her marital entangle-
ments, which she filed against three
persons, were dropped yesterday by
Mrs. Leah Clappitt Sewell, prin-
cipal in a muddled "wife swapping"
divorce case here recently.

Through her attorney, she dropped a separate maintenance action
against her millionaire husband,
Barton Sewell; a \$100,000 damage
suit against Mrs. Jane Emerson,
formerly of Denver, and a \$250,000
alienation of affections suit against
Mrs. Emerson and her mother, Mrs.
Blanche P. Scholte. The suits fol-
lowed trial of the contested divorce
action of Mr. and Mrs. Walter Emerson.
Emerson named Sewell as co-respondent and Mrs. Emerson named Mrs. Sewell.

COUNTY TAX BILL SALES LAG

Only Four Disposed of in Day, 716 Offered.

Only four delinquent tax bills were sold yesterday out of the 716 offered for sale by Collector Willis W. Benson. The four bills were sold for \$47.48, and there were settlements of 77 other bills totaling \$935.25. The sales were of bills on property in Hancock, Bayless and Jennings school districts.

The sale will continue through tomorrow.

FOUNDATION SET UP TO COMBAT DISEASE IN TROPICS

Members of American Academy of Tropical Medicine Organize Unit at Meeting in City.

The American Foundation of Tropical Medicine, an organization for the prevention, control and scientific investigation of the tropical diseases which occur in the continental United States and neighboring countries around the Caribbean Sea, was formed today by members of the American Academy of Tropical Medicine, meeting in convention at Hotel Statler.

The foundation will administer a fund which private individuals and commercial concerns with interests in the tropics have agreed to raise. Headquarters for the organization and preliminary details of its activities were to be arranged at a later meeting.

Dr. Earl B. McKinley, dean of the Medical School, George Washington University, Washington, D. C., and chairman of the academy's committee in charge of the foundation, was elected to represent the academy on the board of directors. Edward J. Mallinckrodt, Jr., St. Louis, president of the Mallinckrodt Chemical Works, has agreed to serve on the board temporarily.

Other Directors Named.

Other directors, whose names Dr. McKinley announced yesterday, are Dr. Israel Bowman, president, Johns Hopkins University; Perry Burgess, president of the American Leprosy Foundation; Dr. Nicholas Murray Butler, president, Columbia University; E. B. DeGolia, San Francisco capitalist; Harvey S. Firestone, president of the Firestone Tire & Rubber Co.; Thomas W. Lamont, New York banker; Dr. Leo S. Rowe, director-general, Pan-American Union; Dr. Robert G. Sproul, president of the University of California, Berkeley; Malcolm B. Stone, president, Ludlow Manufacturing Associates, Boston, and Alvin P. Howard and Paul H. Saunders, both New Orleans business men.

The Academy of Tropical Medicine, composed of 50 distinguished research workers in that or allied fields, held its annual dinner in Hotel Statler last night. Dr. Richard P. Strong, head of the School of Tropical Medicine, Harvard University Medical School, was elected president of the academy.

Other new officers chosen were Dr. William A. Stewart, director of the International Health Division of the Rockefeller Foundation, vice-president; Dr. E. Carroll Faust, Tulane University, secretary, and Dr. W. W. Cort, Johns Hopkins University, treasurer. Dr. William H. Talaferro, Chicago University, and Dr. Thomas Mackie, Cornell University, were elected to the council of the academy.

Retiring President Speaks.

Faulty clinical diagnosis of malaria by physicians in the Southern states was blamed for the "worse-than-useless" statistics on the national distribution of the disease in an address last night by Dr. Charles F. Craig of Tulane University, retiring president of the academy.

"The vast majority of the findings of the practicing physicians are inaccurate, based on observation of clinical symptoms rather than on microscopic examination, as all good medical schools have been demanding of their students in the diagnosis of malaria," he said.

Dr. Craig reviewed the statistics for the country and for the individual Southern states in the incidence of malaria, dengue fever, amebiasis and bacillary dysentery. "There are no available computations of the number of cases of the different types of malaria and where they are discovered. Amebic dysentery and bacillary dysentery have been confused generally with amebiasis," he added.

Meetings Continue.

The meetings of the American Society of Tropical Medicine, parent organization of the academy, continued today. Dr. Strong and Dr. Alfred C. Reed of the Pacific Institute of Tropical Medicine, University of California, presented papers at the morning session. A symposium on the economic and social features of tropical medicine concluded the morning program.

The society and the National Malaria Committee held a joint meeting at Municipal Auditorium today, with 11 papers on various phases of the disease and its treatment.

Dr. N. Hamilton Fairley, lecturer at the School of Hygiene and Tropical Medicine, London, England, honor guest of the society, gave an illustrated lecture yesterday afternoon on sprue, a tropical disease of the digestive system. An active worker in the tropics for many years, Dr. Fairley has specialized in malaria and blackwater fever.

In 15 other papers read to members of the society yesterday research workers described new observations of the symptoms and treatment of tropical diseases which are not well known among human beings and are not of such economic importance as malaria, yellow fever or hookworm.

A member of the society characterized the research summarized in the papers as important ground

TRYED FOR MAIL FRAUD IN DRAKE ESTATE SCHEME

Chicago Detective Tells of His In-
vestigation and Raid on

Hotel.

CHICAGO, Nov. 21.—Forty-one
men and women are on trial in
Federal Court, charged with mail
fraud in promoting claims to the
late Francis Drake estate.

Detective James Zegar testified
yesterday he was assigned last
April to investigate the Drake as-
signments. Chicago offices after a
letter was received by police from

ST. LOUIS POST-DISPATCH

Frank Butterbrodt, Beaver Dam,
Wis., urging them to look into the
affair.

Posing as Butterbrodt, Zegar testi-
fied he called at a hotel and asked
two of the defendants, Delmar Short
and Lester Ohmart, both of Chi-
cago, when he was going to get
some returns on his investment.

"We're expecting returns soon,"
Zegar said he was told.

Five days later Zegar led a raiding
squad which seized records of the
association and \$7174 in cash.
The Government succeeded in ob-
taining some \$90,000 in all from the
headquarters and milk deposit
boxes of defendants.

CONVICTED OF BURNING WIFE TO DEATH IN HOME

Nashville (III.) Man Gets 14
Years; Baby Son Also
Died in Fire.

By the Associated Press.

NASHVILLE, Ill., Nov. 21.—Ros-
coe McMillian, 42 years old, a coal
miner, was convicted of the murder
of his wife, Carrie, by a Circuit
Court jury here last night and sen-
tenced to 14 years' imprisonment.

McMillian was charged with pour-
ing gasoline on his wife in their
home here May 22, and igniting it
with a carbide lamp. Mrs. McMil-
lian and her son, Norman, 2, died of
burns the same day in Centralia
hospital.

Their deaths were at first attrib-
uted to a coal oil explosion, but Mc-
Millian was arrested after his wife's
relatives declared that the dying
woman named him as her murderer.

McMillian, testifying in his own
defense, said the fire was acciden-
tal. He denied pouring the gaso-
line on his wife.

Officially announced an arson
charge and a second murder charge
pending against McMillian in con-
nection with the death of his child
would be dropped.

The jury returned the verdict after
deliberating about four hours.
The penalty, assessed by Judge
Mudge of Edwardsville, is the min-
imum sentence for a murder convic-
tion in Illinois.

National Grange Takes Peace Stand

CLIENTS SAY AID
OF HULLVORSON
SOLICITED SUITS
Continued From Page One.

which Poe's name and that of Hullverson appeared.

"He asked if I was sick or short of breath," the witness said, "and I told him I was. He said if I worked at Klondike and got too much sand, they ought to have to pay for it. If I wanted to do anything about it, he said, I should sign a card. I signed."

Fridley said he was taken to Hullverson's office, next day, by Koelling and Larkin J. Clark, and that Poe presented him to Hullverson.

"Mr. Hullverson," the witness testified, "said he would have to have us (Fridley and Clark) X-rayed to find out if we had any sand, and he couldn't do it that day."

He told, in answer to questions, of seeing papers on Hullverson's table, which "I just figured were suits he had won." He said Poe showed him newspaper clippings as to suits won.

"I became a client of Mr. Hullverson, and still am his client," the witness said. He identified a statement he had made to the Prosecuting Attorney of St. Charles County, but the statement was not read or placed in evidence. A barratry charge is pending against Poe in St. Charles County.

He said his only previous examination by physicians had been by the physicians at the railroad hospital.

Cross-Examination.

On cross-examination by Cullen, Fridley told of being examined by a physician after he had discussed his case with Hullverson. He said his suit was still pending, and that he thought he had a just claim.

Hollingsworth expressed surprise, and, with the permission of the Commissioner, re-examined Fridley over repeated objections of Hullverson's counsel. His questions dealt with a statement Fridley had given in May, 1934, to Prosecuting Attorney Joseph B. Wentker of St. Charles County.

" Didn't you say in this statement," Hollingsworth asked, "that Poe came to you and introduced himself?" "No, Koelling introduced Poe to me," the witness said.

" Didn't you say 'Poe gave me a card'?" "Koelling took me to the house where Poe was at," Fridley answered.

" Didn't you say in May that you did not care to push your claim?" "Yes, sir."

Cullen took the witness back and got him to say that when he made the statement he was accompanied to the Prosecutor's office by Thomas Graham, a superintendent for the Tavern Rock Sand Co., and another man.

Day's Second Witness.

Larkin J. Clark, who lives at Hamburg, St. Charles County, was the next witness. He said he worked for the Tavern Rock Sand Co. at Klondike from the fall of 1925 to the spring of 1927, and that he later talked with Bill Gilmore of Hamburg about having worked there. "The next thing," he said, "Poe called to see him.

"He asked me how long I worked at Klondike," the witness said, "and asked if I didn't think I had something coming to me. I said I didn't know, and he said, 'If you have, would you like to have it?' I said yes, and I signed a contract which showed that Mr. Hullverson took my case."

Asked as to Poe's business, Clark said he would call it soliciting, and that he thought Poe said he was a solicitor. He said Poe told him he was a partner of Hullverson.

He said he went to see Hullverson a month later, and that he had not previously been examined by a physician. He said Henry Koelling was now known as "Bleot" Smith accompanied him to Hullverson's office. Hullverson said he was busy and would see him later, he testified. He told of seeing clippings in the office, telling of suits won.

"Before you talked with Poe," the witness was asked, "had you any idea you were sick?"

"No, sir," was the reply, "except I had a terrible hurting in my chest the last two or three years."

He said Hullverson still represented him, but that he did not know the status of his case.

Back Still Hurts.

Clark, on cross-examination, testified that his back hurt "right now," that he had a pain there for about two years, and that he coughed a lot and did not sleep well.

Referring to the newspaper clippings Clark had testified he saw in Hullverson's office, Cullen said to the witness, "That was just like the Senator here might have a clipping in his office about some big case he had won, like the Muench case?" Hollingsworth, a former State Senator, was one of Mrs. Nellie Tipton Muench's 13 attorneys at Mexico, Mo., when she was acquitted of kidnapping Dr. J. D. Kelley for ransom.

Hollingsworth brought out that the witness had been paid \$7.50 by Hullverson for expenses, and that he did not pay the bill for an X-ray picture taken of him.

Tells of Offer by Poe.

At the afternoon session, following the testimony of Fleusmeier, Augusta tavernkeeper, Werner Lowenhardt, meat market proprietor at Augusta, was called. He told of a visit made to him in the spring of 1933 by Poe, who introduced himself as a representative of the "Hullverson law firm."

He said Poe asked if he knew the names of former employees of the Tavern Rock Sand Co. who might want to bring suit. "He wanted me to see them and interest them in bringing suit," Lowenhardt said. "He said it would be well worth my time."

Lowenhardt said he declined to aid Poe, and reported the conversation to a superintendent for the sand company.

Yesterday's Testimony.

Tim Hardin, Negro, of Kirkwood, former client of Hullverson, who

LAWYER'S 'SAMPLE'

FRATERNAL INSURANCE RATE
RISE ATTACKED IN SUITS

Actions to Enjoin Royal Neighbors of America Filed in Belleville.

Suit for an injunction against a rate increase by the Royal Neighbors of America, a fraternal insurance organization, was filed in Circuit Court at Belleville today by three East St. Louis members, Mrs. Mollie D. Smith, Edward N. Ferguson and Mrs. Nancy Kenney.

The petition also asked for an accounting of \$111,747 which, it was alleged, was received as dues by officers of the East St. Louis chapter of the organization and invested in property of "low value." The provisions for increasing rates from 50 to 100 per cent above the former scale was adopted at a special session last September at Detroit, the petition said.

One of the women plaintiffs alleged that under the new rate she would have to pay \$22 a month instead of \$3. It is asserted the organization has a membership of 1,000,000 and a surplus of \$52,000, making a rate increase unwarranted.

DRIVER'S LICENSE REVOKED

Judge Orders Youth, 17, to Get One and Surrender It.

John Owen, 17-year-old high school student, 2761 St. Vincent street, will be one of the first motorists to have his driver's license revoked when the new law goes into effect after Jan. 1.

This penalty was fixed today when he pleaded guilty before Police Judge Simpson of injuring a man last month while driving his automobile on the wrong side of the street. He was instructed to obtain a driver's license, surrender it to the Court Jan. 7, and refrain from driving until he is 21 years old.

Len Small Pays Bank Judgment.

SPRINGFIELD, Ill., Nov. 21.—A \$30,000 payment by former Gov. Len Small of Kankakee, his full liability as a former stockholder, was made to the receiver for the defunct Ridgely-Farmers State Bank in Circuit Court yesterday by Attorney Werner W. Schroeder of Chicago, representing Small. Small was the first of the former stockholders to settle.

Schedule Changes

Effective, Sunday, November 24th, train No. 23 will leave St. Louis 8:40 AM instead of 11:40 AM; train No. 1 will leave St. Louis 10:30 PM instead of 10:35 PM. No change in arrival time train 2 & 24 SOUTHERN RAILWAY SYSTEM

PHYSICIAN DENIES HE GAVE DRUGS TO HASTEN DEATHS
says It Is Gamble in Some Cases Whether Opiates Will Prolong or Shorten Life.
By the Associated Press.

READING, Pa., Nov. 21.—Dr. Monroe F. Clouser of Friedensburg, Pa., denied today he ever "did anything" or "gave an overdose of any drug" during his quarter-century practice.

The physician in a statement declared he had not said deaths of six incurable patients had been caused by his treatment.

Dr. Clouser said that in alleviating

suffering of incurable patients, "it has been my policy as well as that of most other physicians to consult the immediate members of the family whether or not they wish me to administer an opiate.

"As soon as an opiate is administered to a person suffering from an incurable disease, the drug may cause his death sooner if he had been permitted to go without the opiate.

"Then again, he might die even sooner if he were permitted to lie in agony.

"It is just as much of a gamble when you administer a drug as when a surgeon operates on a person to save his life. You don't know definitely whether he will respond

to the effects of the operation or whether it will cause his death.

"As for my administering any overdoses with the express purpose of bringing about a mercy death—that is absolutely untrue and I am not guilty of that."

Safe Deposit Association Head.

David L. Colby of the Boatmen's National Bank was elected president of the St. Louis Safe Deposit Association at the annual meeting of the organization Tuesday evening. Other officers elected included Frank J. O'Reardon, Manchester Bank, vice-president; Guyla Catel, Plaza Bank, treasurer; and A. L. Siem, First National Safe Deposit Co., secretary.

about 15 hours later he left a tavern at 4301 Prairie avenue. Owens admitted the shooting in a signed statement to police. Asked if he was drunk at the time, he said he had been drinking, but knew what I was doing."

"I went there to see my son and daughter and to give some money to my daughter, Valera," Owens said. "The woman came to the door and shoved me back. Then old man Smith came out and jumped on me and told me to beat it. Old Man Smith and my son had threatened me, and told me to stay off Penrose street."

Owens' son, Joseph, 17, was in the back of the house when his father called, and knew nothing of what occurred until he heard the shots. Valera, 19, was not at home.

Owens said he had bought the revolver yesterday afternoon in East St. Louis. He visited several taverns before taking a taxicab out to his old home on Penrose street.

The revolver, fully loaded, was in Owens' pocket when he was arrested. In the same pocket were 26 extra cartridges. Owens said he could recall firing only one shot. After he left the house on Penrose street, he said, he reloaded the weapon.

Joseph Owens' Explanation.

Joseph Owens told police his father had told him of the wrongs of which he was accused, and kept a list of the names of persons he thought had treated him unkindly. Joseph's own name was on the list, he said.

Owens, 52, is a dispatcher for the Terminal Railroad Association and lives at the Edison Hotel, Eighteenth and Chestnut streets. He and his wife separated in October last year, and she obtained a divorce Aug. 12, about two weeks before her marriage to Smith.

Two sons and three daughters survive Smith. The sons, Earl and Robert H. Smith Jr., live a few doors away at 4123 Penrose street, where their father lived for 13 years before his recent marriage. Their mother is dead.

SUSPECT QUESTIONED ABOUT MURDER OF STOREKEEPER

Has Ready Explanation for Two Clews Found by Police.

When police found a coal delivery ticket bearing the name of a Negro hauler in the pocket of a fleecy-lined coat lying near the body of William C. Hite, secondhand dealer, 1809 Franklin, and beaten to death in his room behind his store at 1809 Franklin avenue, Nov. 11, they thought he had a good clew.

But the Negro readily admitted ownership of the coat. He said he had pawned it for 50 cents. A memorandum book showed the Negro previously had obtained small loans from Hite on other articles, but no record of a loan on the coat was there. The Negro continued to deny any knowledge of the murder.

Then Capt. Andrew Aylward had a deposit under the finger nails of the suspect analyzed. Again it appeared there might be some evidence against the Negro, for a laboratory reported the specimen contained human blood. But the Negro, confronted by the analysis, again denied the police were correct. He had had a fight at Jefferson avenue and Delmar boulevard, he said. And inquiry by police showed he was telling the truth.

However, the Negro, arrested the day following the murder, still is being held. The case will be presented to the Circuit Attorney.

Nail in Missouri Farmer's Barn
 Gouged Wood from Truck
 When Steers Were Taken.
 By the Associated Press.

EDINA, Mo., Nov. 21.—Two Missouri farmers, J. W. Bue, 22 years old, and Emmett Barnes, 25, living near Bethel, pleaded guilty yesterday of stealing seven steers from the farm of Lee Greenley Oct. 28, and were sentenced to two years imprisonment.

They were arrested after Highway Patrolman Victor Kelsel of Marion discovered that two splinters he had found on a protruding nail of the Greenley barn fitted a gouged place in a truck driven by the two men to the Shelbina community sale two days after the robbery.

James Johnson, 23, and Alvin Lark, 24, both of Chillicothe, were sentenced to two-year terms for robbing a store at Hurland, Nov. 8.

RELIEF FUNDS CAN'T BE USED
 TO BUY PRISON-MADE GOODS

Comptroller-General McCarl Up-holds Ruling of Treasury Officials.

By the Associated Press.

WASHINGTON, Nov. 21.—The buying of a cheap prison-made brush for the army brought a ruling from Comptroller-General McCarl yesterday that goods from convict shops cannot be paid for out of relief funds.

The ruling followed one by the Treasury procurement division which held that no part of the \$4,880,000,000 work relief fund could be so spent because it was intended to "provide work relief, and to increase employment by providing for useful projects."

Government agencies are required by law to purchase goods made in Federal prisons from regular funds

If there is a supply and a demand, but these provisions do not affect purchases with relief money.

HELD FOR ROCK ISLAND POLICE

Two Men Alleged to Have Defrauded Hotel of \$55.

David Remley, 7745 Olive boulevard, University City, and Warren Johnson, 5618 Cabanne avenue, were arrested last night at the request of Rock Island (Ill.) police, who said they held warrants against them charging defrauding a hotel there of \$55 last Nov. 12.

They were released on bond after they said they would refuse to waive extradition. Remley said he and Johnson ran out of funds at the hotel and that Johnson paid their hotel bill of \$47.50 with a check on the First National Bank in St. Louis. Johnson, a salesman, corroborated Remley's statement.

Ward Baking Co. Executive Dies.

By the Associated Press
 NEW ROCHELLE, N. Y., Nov. 21.—Howard Boyd Ward, an executive of the Ward Baking Corporation, and son of the founder of the organization, Robert B. Ward, died Tuesday night of food poisoning presumably caused by eating tainted meat. Her 19-year-old husband is ill. They were on relief.

And other manufacturers are making plans to offer Metal Tube radios soon

Ever since Metal Tube Radio Sets were announced, the demand for them has far exceeded the supply. Manufacturers have doubled, trebled and quadrupled their output of Metal Tube Radio Sets, yet the shortage is even more acute today.

Thus America once again recognizes quality on sight.

Metal Tube Radios are modern, not merely because Metal Tubes represent the greatest advance in Radio Tube design in 28 years, but because they enable a receiver to produce results that are far superior.

Hear and tune a Metal Tube Radio, and you will change entirely your ideas as to what superlative reception is! But be patient with your dealer if he can't make immediate delivery on the Metal Tube Radio Set you want. His orders on the factory are being filled as rapidly as possible.

Metal Tubes—the Sign of an Up-to-date Radio!

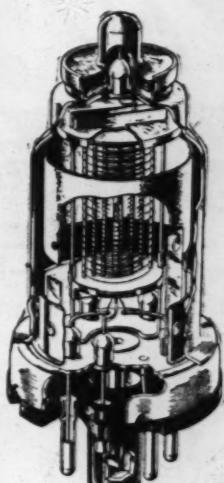

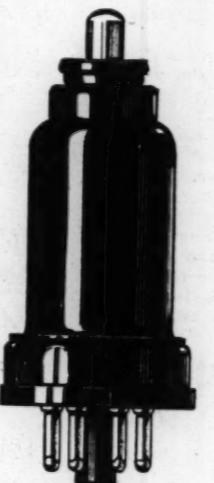

1935 goes down in radio history as offering a new, revolutionary and permanent improvement—Metal Tubes—already adopted by the vast majority of radio manufacturers. *Progress cannot be stopped.*

Get what you want—a new radio—a MODERN radio—a radio with Metal Tubes!

METAL TUBES Sealed in Steel—Made Like a Fine Watch

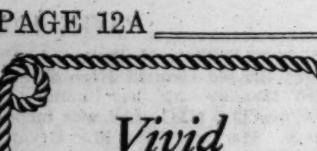

Things made of steel can be accurate within a ten-thousandth of an inch. The higher the precision with which a tube is made, the greater its efficiency, the more uniform the tubes are, the better the radio set can be made. Metal Tubes, designed by the famed General Electric Laboratories, are made by RCA and other tube manufacturers licensed under RCA patents. Metal Tube radios are quieter, more sensitive, better toned, superior in every way. PROVE THIS FOR YOURSELF AT ANY DEALER'S STORE.

Be modern—get a radio set with Metal Tubes

SEE WHAT'S INSIDE

All-Metal design makes Metal Tubes small and sturdy, and suppresses vibrations. Perfect shielding results in stability of performance, and the shorter leads make possible more effective short-wave reception. Thus Metal Tubes take their place at the head of the great list of radio improvements, each one the sensation of its day: (1) Crystal Detector; (2) Triode Detector; (3) Untuned Radio Frequency Amplification; (4) Armstrong Regenerative Receiver; (5) LoudSpeakers; (6) Tuned Radio Frequency Amplification; (7) Cone Speakers; (8) Alternating Current Tubes; (9) Dynamic Speakers; (10) Power Amplifier Tubes; (11) Superhet-erodyne Circuit; (12) Screen Grid Tubes; (13) Pentode Tubes; (14) Metal Tubes.

MOONEY JUROR MET FICKERT, LAWYER SAYS

Witness Also Accuses Foreman of Signaling to Prosecutor at Trial.

By the Associated Press.
SAN FRANCISCO, Nov. 21.—The foreman of the jury at the trial of Thomas J. Mooney was accused yesterday by an attorney of secretly communicating with the prosecution and signaling in advance the death verdict returned in the 1916 Preparedness day parade bombing case.

The witness, appearing at the habeas corpus hearing in which Mooney seeks freedom from the life term for which his sentence was commuted in 1927, told Edward V. McKenzie, counsel for another bombing defendant, Israel Weinberg.

McKenzie said he saw the foreman, William MacNevan, put his finger inside his collar and draw it across his throat, which McKenzie alleged to be a signal to Prosecutor Charles M. Fickert. He said he knew that MacNevan and Fickert met at a billiard parlor during the trial and discussed the case.

McKenzie also testified that he knew of a close friendship between MacNevan and Ed Gunha, assistant prosecutor in the bombing trials.

Weinberg, McKenzie's client, was acquitted after Mooney's conviction.

MEDICAL MEN PUT WREATH ON GRAVE OF DR. BEAUMONT

Honor Paid to Surgeon Who Observed Function of Stomach More than 100 Years Ago.

The afternoon program of the Southern Medical Association Convention today included the placing of a wreath on the grave of Dr. William Beaumont, "America's first modern physiologist," at Bellefontaine Cemetery.

Dr. Neil S. Moore, president of the St. Louis Medical Society; Dr. H. Marshall Taylor of Jacksonville, Fla., president of the Southern Medical Association, and Dr. Joseph P. McNearney, president of the Southern Association of Anesthetists, represented their organizations at the service.

Dr. Beaumont gained international fame for his observations of and experiments on the functions of the stomach and the physiology of digestion. While an obscure army surgeon stationed at Wisconsin more than 100 years ago, he treated a Canadian woodsman, who had been accidentally wounded by a charge which tore away his left side, leaving part of the stomach exposed. The wound healed but left a small opening in the side of the digestive tract. For years following, Dr. Beaumont studied the action of the stomach through that aperture. He was transferred to Jefferson Barracks and in 1840 resigned from the army, after which he continued his practice in St. Louis. He died in 1853.

WARTIME DEFENSE BILL IN PHILIPPINES ASSEMBLY

Mustering of All Citizens and Resources Provided During an Emergency.

By the Associated Press.
MANILA, Nov. 21.—A bill mustering all citizens and resources for the defense of the Philippines in time of war was filed with the National Assembly today.

The bill, which bears the endorsement of President Manuel Quezon, provides: "The freedom, independence and perpetuity of the commonwealth shall be guaranteed by the employment of all means, without distinction of age or sex, and all resources in repelling an invasion and insuring territorial integrity."

The measure carries a yearly appropriation of \$1,800,000 for the military training of students between 10 and 18 and men of 21 years or older. Each must spend at least five and a half months in training.

FIREMEN WANT OLD TOYS TO REPAIR FOR NEEDY CHILDREN

Chief Says They Have Not Received Many as Last Year.

An appeal for used toys which can be repaired by the Fire Department for distribution to needy children at Christmas was made yesterday by Fire Chief O'Boyle. At this time last year, he said, far more toys were being brought to engine houses than is the case this year.

For the past few years, members of the Fire Department have been repairing and repainting old toys which are then turned over to charitable organizations for distribution to underprivileged children. Last year 20,000 toys were repaired by firemen during their spare time at the engine houses.

E. ST. LOUIS STREET BIDS

Dec. 4 Final Day for Estimates on Three Repaving Jobs.

The East St. Louis City Council yesterday set Dec. 4 as the final day for receiving bids on three street repaving jobs. They are: Broadway from Tenth to Twenty-sixth street; Sixteenth street from Broadway to Baugh avenue, and Waverly avenue from Twenty-fifth to Fortieth street.

The jobs, partly financed with PWA funds, are estimated to cost \$235,000, of which the PWA will furnish about \$75,000. The remainder will be paid out of the city's share of the State gasoline tax.

Former Princeton U. Leader Dies.

WILMINGTON, Del., Nov. 21.—Henry Thompson, former chairman of the board of directors of Princeton University, died last night at his home in nearby Greenville. He was 78 years old.

BABY SETS CLOTHES AFIRE

Child Severely Burned When Playing With Matches.

Michael Kausch Jr., 2 years old, played with matches yesterday afternoon at his home, 1812 Seventh boulevard, suffering severe burns.

His mother, who was in another room when he obtained the matches in the kitchen and set fire to his clothing, put out the fire and took him to City Hospital. He is under treatment for burns of the body and legs.

HAUPTMANN WAS FAIRLY TRIED, SAYS NEW JERSEY BRIEF

State Urges Supreme Court Not to Review His Conviction for Murder of Lindbergh Baby.

By the Associated Press. WASHINGTON, Nov. 21.—The State of New Jersey urged the Supreme Court today not to review the conviction of Bruno Richard Hauptmann for the murder of the Lindbergh baby.

A 30-page brief filed by Joseph Lanigan, assistant State attorney-general, concluded with these words:

"It is respectfully submitted that the petitioner (Hauptmann) has not shown himself to have been deprived of any right accorded him by the Fourteenth Amendment, and further, that he has been convicted and is now held in custody under due process of law within the meaning of the Constitution."

Hauptmann recently appealed to the Supreme Court to save him from the electric chair. His lawyers criticized the activities of the attorney-general of New Jersey, David T. Wilentz, and asserted the trial at Flemington, N. J., resembled a "circus."

State's Summary. Replying to these contentions, the State's brief summarized its argument as follows:

"The summation of the attorney-general was based on the evidence."

"The cross-examination of the petitioner was proper."

"There was no variance in the theory of death."

"The Court's charge was in accordance with the law and the facts."

"The jury was properly sequestered."

"No Constitutional right has been denied."

A decision by the Supreme Court on whether to review the conviction may come on Dec. 9. New Jersey had until Dec. 5 to reply to the Hauptmann appeal and an early decision is made possible by the State's action in filing its brief today.

Review of Case.

The New Jersey prosecutors set forth their contentions as follows:

"In the night of March 1, 1932, Charles A. Lindbergh Jr., an infant, was kidnapped and murdered."

"The petitioner (Hauptmann) was identified as the recipient of the money." (Referring to \$50,000 ransom.)

"The petitioner was identified as the writer of the ransom notes."

"The corpse was conceded to be that of the Lindbergh baby."

"Petitioner was found in the immediate vicinity of the Lindbergh home on said March 1, 1932. (Date of the kidnapping). He was driving an automobile which contained a ladder."

"On Sept. 15, 1934, petitioner tendered a \$10 gold note at a gasoline station in New York City. The note was identified as a Lindbergh ransom note."

"A vast amount of the Lindbergh ransom money was found at Hauptmann's home in the Bronx."

"In a closet in his home, written on a piece of board, was the address and telephone number of Dr. Conrad ("Jafsi")—ransom negotiator.)

"The floor board in his attic and one of the rails of the kidnap ladder were once the same piece of lumber."

"After payment of the \$50,000 ransom money on April 2, 1932, petitioner . . . devoted his time to stock market speculation."

GIVES UP AUTO FOR 90 DAYS

Driver Fined \$100, Paroled on Imprisoning License Plates.

Howard Sheer, 26-year-old WPA worker, 811 Mauritius Avenue, Ferguson, pleaded guilty to charges of careless driving and leaving the scene of an accident before Police Judge Simpson today, and was fined \$100 and costs. He was paroled later on condition that he turn over his automobile license plates to the parole officer for 90 days.

He was arrested Oct. 25 after having been involved in an automobile accident at Vandeventer avenue and West Pine boulevard.

CATHOLIC WOMEN PROTEST ON CONDITIONS IN MEXICO

Council Calls on Affiliated Societies to Declare Against "Inhuman Treatment of Co-religionists."

By the Associated Press

FORT WAYNE, Ind., Nov. 21.—The National Council of Catholic Women adopted a resolution yesterday protesting against alleged persecution of Catholics in Mexico.

"We appeal to all fellow citizens to inform themselves and to insist that the public press perform its whole duty in reporting truthfully the news from Mexico," the resolution said. "We resolve that the united strength of all the affiliations of the council be used to protest to our Government against the inhuman treatment of our co-religionists."

"We appeal to all fellow citizens to inform themselves and to insist that the public press perform its whole duty in reporting truthfully the news from Mexico," the resolution said. "We resolve that the united strength of all the affiliations of the council be used to protest to our Government against the inhuman treatment of our co-religionists."

FORT WAYNE, Ind., Nov. 21.—The National Council of Catholic Women adopted a resolution yesterday protesting against alleged persecution of Catholics in Mexico. "We appeal to all fellow citizens to inform themselves and to insist that the public press perform its whole duty in reporting truthfully the news from Mexico," the resolution said. "We resolve that the united strength of all the affiliations of the council be used to protest to our Government against the inhuman treatment of our co-religionists by the political dictators of Mexico."

The Council elected Miss Katherine R. Williams of Milwaukee president.

JAMES ROOSEVELT QUILTS FIRM

Resigns as President of Yeast Corporation.

NEW YORK, Nov. 21.—James Roosevelt, eldest son of President Roosevelt, announced yesterday his resignation as president of the National Grain Yeast Corporation of Belleville, N. J.

In a statement from his insurance office, Roosevelt said his resignation was effective Nov. 1 and gave "the pressure of other business" as the reason. He was not available for comment on a report published by the Newark Evening News that he had had "a disagreement with the board of directors."

Lindley Waters, 39-year-old proprietor of a tavern six miles north of Alton, was shot and seriously wounded last night when he pursued three armed robbers with a shotgun after they had held up his tavern and taken two slot machines, one of which they left behind in their flight.

The bullet struck Waters in the right side of the abdomen and emerged at the left side of the back. At St. Joseph's Hospital, Alton, where he underwent an emergency operation early today, it was said the bullet had pierced the kidney and the intestines and chipped the bone at the base of the spine.

Waters was asleep in a room adjoining the tavern and his waitress, Mrs. Will Bean, was in charge when the robbers entered about 6:15 o'clock. They had a round of drinks and paid for them with a \$1 bill. Mrs. Bean went to the adjoining room to get change and when she returned the three men were facing her armed with pistols.

Mrs. Bean screamed, awakening Waters, who picked up his shotgun and came running into the main room. Mrs. Bean said she tried to stop him, but he said he would chase the robbers out. The men fled, carrying the two slot machines, and Waters followed. As he stood outside the doorway, trying to see which way they had gone on the dark road, one of the men fired back and struck him.

The men escaped in an automobile parked nearby, leaving one slot machine in the driveway. Mrs. Bean said one of the robbers was tall and wore a leather jacket and a blue handkerchief around his neck. Another was short and wore a zipper jacket and cap. She could not give authorities a description of the third. Waters' tavern is on Illinois State Highway No. 111 near the intersection with Delhi road.

Directors at Bristol, Tenn., Say
Questions Are Not Fairly
Worded.

By the Associated Press.

BRISTOL, Tenn., Nov. 21.—Directors of the Bristol Chamber of Commerce have declined to take part in a referendum sponsored by the United States Chamber of Commerce on trends in Federal legislation. The directors held that the set of four questions was so worded as to make satisfactory replies impossible.

By the Associated Press.
SPRINGFIELD, Mass., Nov. 21.—Only one-fifth of the 500 members of the Springfield Chamber of Commerce returned ballots on the referendum of the United States Chamber of Commerce on trends of Federal legislation. The directors held that the set of four questions was so worded as to discredit the administration.

WOMAN VICTIM OF AMNESIA

Found in Church, Unable to Give Any Information About Self.

Police are trying to identify a young woman amnesia sufferer at City Hospital, who walked into a Sunday school room at the Second Baptist Church, 4970 Washington boulevard, yesterday afternoon, and was unable to give any information about herself.

She is described as being about 23 years old, 5 feet 7 inches tall, weighing about 100 pounds. She wore a brown sport coat and a brown dress and had a red handkerchief around her throat. She has dark bobbed hair and brown eyes.

ST. LOUIS BOXERS WIN FROM INDIANAPOLIS, 3 BOUTS TO 2

**SLIGHT VICTORY
MARGIN EARNED
BY PAUL SPICA
IN LAST MATCH**

St Louis amateur boxers have the scalp of another city hanging from their belts today, for they defeated a team of Indianapolis boys at the Auditorium last night, three bouts to two, the victory following a triumph which they scored over Chicago last week.

It was a hard-fought triumph over the Hoosiers, and it was Paul Spica, lightweight, who gave the home-town boys their margin of victory, winning the final bout of the evening from Marval Bennigen.

Paul used a right uppercut effectively to take each of the four rounds and his right to the decision was unquestioned.

Only one Knockout.

There was only one knockout, that being scored by Al Brendle over George Lefevre of Indianapolis in the welterweight division. Lefevre was a glutton for punishment, being down for counts of eight and nine, and again when the bell rang to end the second round. But in the third, after he had been down twice, Harry Kessler, the referee, stepped in and stopped the bout to save the visitor further punishment.

Charley Sackett opened the inter-city contest with a victory for St. Louis when he defeated Tommy Lefevre, George's brother. It was a flyweight match and Sackett earned the victory by gaining the final round decisively. It was a close fight throughout, but Charley got in the final sock and turned the tide in his favor.

Then came Brendle's technical knockout triumph, after which the Indianapolis boys evened the score with Judy Davies scoring over Eric Koberg and Bud Cottet defeating Louis Wallach, both matches being in the bantamweight division. That put the decision right up to Spica and Paul, fine little battler that he is, came through nobly.

Davies was a pretty tired boy in his battle with Koberg and if Eric had not been so cautious the chances still would have won, but when he struck the visitor he receded too long to follow up his advantage and permitted his foe to recover.

Cottet was easily the best of the Hoosiers and outpointed Wallach by a wide margin. He punched straight with both hands and continually kept Lou off balance with his left.

One of the most interesting contests of the whole program was a preliminary in which Von Ellis of the South Broadway gained a decision over Dorsey Chaffin, unattached, in a middleweight battle. Ellis showed plenty of courage in recovering from Chaffin's punches and put Dorsey down twice, although he got up each time without a count.

Bulls Is Victor.

Mike Bulla secured a clever victory over Al Hoffman in a lightweight bout, while Tommy Starr outpunched Tony Maratta of the South Broadway to gain the decision.

The preliminaries were all of three rounds and the inter-city matches four rounds each.

Monroe Harrison, Negro light heavyweight, was forced to cancel

**Sharkey Has No
Chance to Defeat
Louis, Tunney Says**

Special to the Post-Dispatch.
PEORIA, Ill., Nov. 21.—ACK SHARKEY beat Joe Louis?

It's a laugh, despite the recent statement of the Boston gob, and the authority is no less than Gene Tunney, once something of a fighting man himself.

"Sharkey hasn't a chance against Louis," Tunney declared here yesterday. "While Louis hasn't been put to a real test, there is little doubt but what he's a good man."

"I think Jack Dempsey could have licked him when he was in shape," Baer was scared to death of Louis.

"Jimmy Braddock is plucky, but not good enough to whip Louis."

Could Champion Gene Tunney have beaten the Brown Bomber? Business Man Gene Tunney didn't say.

His scheduled match with James Viny of Indianapolis because of bad cold.

The attendance was \$78; gross receipts \$457.65; Federal tax, \$40.29; city and state tax, \$19.11 each.

AMATEUR RESULTS

INTER-CITY MATCHES,
Paul Spica, St. Louis, defeated Marval Bennigen, Indianapolis, 4 rounds. 135 pounds. Harry Kessler, referee.

Bud Cottet, St. Louis, 4 rounds, 118 pounds. Kessler, referee.

Eric Koberg, Indianapolis, defeated Eric Koberg, St. Louis, 4 rounds, 118 pounds. Kessler, referee.

John D. Ellis, St. Louis, stopped George Lefevre, Indianapolis, 3 rounds. 147 pounds. Kessler, referee.

Charley Sackett, St. Louis, defeated Tommy Lefevre, Indianapolis, 4 rounds. 112 pounds. Kessler, referee.

PRELIMINARIES,
Ellis, South Broadway, 4 c. def.
Dorsey Chaffin, unattached, 3 rounds. 160 pounds. Al Hoffman, referee.

Mike Bulla, Mullanphy, defeated Al Hoffman, unattached, 4 rounds. 135 pounds. Kessler, referee.

Tony Maratta, South Broadway A. C., 3 rounds. 125 pounds. Kessler, referee.

Judge—Bob Parkinson and Al Gratt.

WHITES AND BLUES TIED FOR TABLE TENNIS LEAD

The Women's Metropolitan Table Tennis League lead was still shared by Mrs. Virginia Bae Duek's White squad and Esther Guenther's Blues after a week's matches. The White won from Mrs. Gertrude Gossens, 6-3, while the Blues defeated Dolores Probert's Reds by the same score.

The standings:

Team	Won	Lost	Pct.
Whites	17	10	.629
Blues	17	10	.629
Reds	14	14	.452
Greys	21	15	.418
Greens	10	17	.371

Burman Gets Match.

Three men have been signed for matches on the Veterans of Foreign Wars wrestling card, which is scheduled Nov. 29 at the Coliseum.

Johnny Mize Recuperating.

TALK of the Cardinals trading Tim Collins has a false ring to it. At this writing there is no certainty that a first baseman worth the name could be obtained, if Collins were included in that deal with the Giants, as suggested in some stories.

Johnny Mize, the great prospect, whom the Cards had in process of development at Rochester, is in the hospital recovering from a very difficult operation performed on him last week.

A growth on the left pelvic bone which greatly impeded his leg action was removed. The patient is getting along famously and will begin training as soon as he is physically able to stand work. That will be before the squad goes south to Bradenton.

But there is no guarantee that the recovery will be permanent or that he will continue to develop as a first baseman. There is too much guesswork about his future for the Cards to prematurely relinquish a first sacker of known promise.

Mize is the boy who was sold for \$55,000 to Cincinnati on condition that his legs were O.K. The Reds returned him when it was found that his underpinning was not normal.

Fatherree, Not Mickal.

GEORGE H. WHITFIELD of this city calls attention to an error in the story of the Louisiana State Bank and Georgia Saturday, in which the Associated Press account credited Fullback Mickal of L. S. U. with a 29-yard run for a touchdown. Whitfield writes:

"Instead, this remarkable run was made by Fatherree, L. S. U. right half, the extra point alone being scored by Mickal."

"As a matter of fact, this run

West Frankfort Wins.

By the Associated Press.

WEST FRANKFORT, Ill., Nov. 21.—The West Frankfort High School football team defeated Marion, 6 to 0, here yesterday, leaving only the Thanksgiving day game with Benton, between them and a tie with Carbondale for the championship of the Big Eleven Conference.

Nine Seniors on Team.

Nine seniors on the best football team Penn State has had in years will soon play their last game. Five of the nine are regular starters.

TAFF GETS 759
TOTAL TO LEAD
IN PIN LEAGUE

Fred Taff of the Say It With Flowers, with games of 245, 234 and 280 for a total of 759, was the individual star in last night's round of the Classic Bowling League on the Washington alleys. He was given a close race for honors by Harry Frederic, who counted 748, with games of 245, 267 and 236.

Among the teams, the Budweisers had the highest total of 3227 and won three straight from the Say It With Flowers with 3082. The Budweisers had a high game of 1146.

The league-leading Germans won two out of three from the Silver Seals, scoring 3136 against 3035. The defeat dropped the Silver Seals into third place, with the Budweisers moving to second. Hermann, 669, and Weinstein, 667, topped the winners, while Nathe had 663 for the losers.

The Charles J. Krons, with 3028, won two out of three from the Old Judge five. Wilson, 655, and Diering, 654, were the team leaders. In the other match, in which neither team reached 2850, the Rogers won the odd tilt from the All-stars.

Match for Wolgast.

By the Associated Press.
OAKLAND, Cal., Nov. 21.—Midweek Wolgast of New York, former world's heavyweight boxing champion, was signed for a 10-round bout here next Wednesday with Henry Armstrong, Los Angeles Negro. Armstrong's California featherweight title will be at stake.

PROFESSIONAL
TENNIS BOARD
HAS SANCTIONED
OPEN TOURNEY

Special to the Post-Dispatch.
LOS ANGELES, Nov. 21.—Preliminary steps toward establishment of national and sectional amateur tennis championships, in which amateur and professional players would compete on a national basis, were revealed here yesterday by William T. Tilden II, former world's amateur men's champion and now ace of the "earn-earning" element.

The United States Professional Lawn Tennis Association has given its complete sanction to the plan, which calls for a big national open championship to be held next fall, in New York or Los Angeles. The national championship would naturally be followed, so proponents of the idea believe, by sections, state and even city open championships under the same auspices and conditions.

Seek National Sanction.
Persons influential in tennis and other lines are now seeking the sanction of the United States Lawn Tennis Association, the governing body of amateur tennis, so Tilden declared, with the strong possibility that such a sanction would be forthcoming shortly.

The United States National Lawn Tennis Association sanctioned an open championship tournament a year ago, but left a loophole in the resolution: "If a suitable date can be arranged."

MCKENDREE READY FOR
ILLINOIS COLLEGE GAME

Special to the Post-Dispatch.
LEBANON, Ill., Nov. 21.—Coach Paul Waldorf sent the McKendree College grididers through their last hard workout of the season yesterday with more than an hour's scrimmaging against the Scott Field soldiers at Scott Field. The scrimmage marked the Bearcats' final preparation for the Illinois College game, which rests McKendree's hopes for the undisputed Illinois Intercollegiate Conference football crown.

Led by Capt. Howard Larsh, a candidate for All-Conference honors, the big Bearcat forward wall will weigh a trifle more than the Illinois College linemen.

height of his career and is now employed by a sporting goods company in New York, brought before him the meeting a proposition, which he said had been suggested to him by persons ready and able to put the deal across, calling for an open tournament with \$25,000 prize money for the professionals and valuable trophies for amateurs. The plan met with instant approval of the professional association, and a sanction was immediately forthcoming.

Tilden maintains that a tournament of such importance as a national open should be conducted late in the fall, when amateur competitors might be expected to be in top competitive form. He insists that play should be held outdoors, on clay courts, on good artificial surface rather than grass.

The movement started at the professional association meeting in New York late last month, Tilden revealed.

At that time, Vincent Richards, who turned professional at the

**\$300.00 in Cash Prizes
For 50 Successful Fans
In Sixth Football Test**

Listed below are fifteen major football games scheduled for Nov. 23. To enter the Post-Dispatch Football Knowledge Test, fill in your estimates of the scores of the games and send your entry to the Football Scores Editor, St. Louis Post-Dispatch, accompanied by a brief explanation of your selections. Entries will close at midnight, Thursday, November 21.

The following cash prizes Washington U.—vs. Okla St.—
First Prize \$100.00 DePaul—vs. St. Louis U.—
Second Prize 50.00 Duquesne—vs. Detroit—
Third Prize 25.00 Georgia—vs. Auburn—
Fourth Prize 15.00 Illinois—vs. Chicago—
Fifth Prize 10.00 Indiana—vs. Purdue—
Ten Prizes, each 5.00 Michigan—vs. Ohio State—
Ten Prizes, each 2.50 Missouri—vs. Kansas State—
Twenty-five Prizes, each 1.00 Northwestern—vs. Iowa—
Fifty Prizes, totaling \$300.00 Notre Dame—vs. So. California—
Here Are the Rules:
Prizes will be awarded to participants whose entries are most accurate and whose explanations in the opinion of the Football Scores Editor are most logical and convincing.

The Football Knowledge Test is open to everyone except Post-Dispatch employees and members of their families.

A brief explanatory letter must accompany each entry.

The games on which the competition is based will be listed daily in the Post-Dispatch sports column up to and including Thursday, November 21. The competition will close at midnight, November 21, and entries must be posted before that time.

It is not necessary to use the entry form in the Post-Dispatch. Any piece of paper of approximately the same size will do.

You do not have to buy the Post-Dispatch to enter. Copies may be examined at public libraries or in business office of the Post-Dispatch.

Only one entry may be submitted by each participant.

In the event of a tie for any award, the full amount of the award tied for will be paid to each participant.

Names of successful participants will be published in the Post-Dispatch, Wednesday, November 27.

The Football Scores Editor will be the sole judge of entries submitted and his decision must be accepted as final.

going into Olympic competition.
Included on the squad was Lloyd P. Carlos of Los Angeles, and Frank Brimsak.

LOCAL AUTO DRIVERS TO MEET CHICAGOANS

The first of the intercity team races which will feature midget auto racing at the Arena this winter will be held here Dec. 3 with the St. Louis team meeting the Chicago squad.

Chicago will be represented by three well-known drivers, Wally Mitchell, Duke Nalon and Wally Zale. Mitchell was a consistent winner at the Arena during the winter season last year. Nalon and Zale are long-distance drivers of note, Zale having won the 75-lap feature race at Edward Walsh stadium last summer, with Nalon winning the 50-lap event that preceded it.

The players have been notified to report to Walter Brown, of Boston, at the New Haven (Conn.) arena Dec. 7 to begin a series of three tryout games. The first will be played that night against the Yale University sextet. The second game will be played Dec. 8 in Madison Square Garden with the St. Nicholas Hockey Club. The third is booked at Princeton, Dec. 9, against Princeton University.

After the series, the Olympic personnel will be selected by the Olympic Ice Hockey Committee, headed by Joseph Bulkley, as chairman, and Frederick W. Rubinas secretary. The team will sail Jan. 3 and play a series of games in London, Paris and Switzerland before

JAPAN HOLDS UP ITS ANNEXATION OF NORTH CHINA

Order From Tokio Defers, at Least Temporarily, the Establishment of Separate Government.

SOME ARMY MEN INSIST ON ACTION

Official Debate on Issue Expected Tomorrow — Life of Cabinet May Depend on Outcome.

(Copyright, 1935, by the Associated Press.) TOKIO, Nov. 21.—The scheme for secession of North China under the protection of the Japanese army went away today.

An official source says the chief reason for the setback in plan to bestow a new government on 96,000 persons of five North Chinese provinces was an order by the army high command in Tokio to its subordinates on the continent, stating that offices continuing in a Chinese separatist movement were exceeding the authority.

This order, which at least temporarily hampered plans for extension of Japanese military protection into regions south of the Great Wall, was one of the rare instances in which civilian leaders of the Tokio Government made cautious views prevail over military ambitions.

Repetition of Previous Order.

It is understood the order repeated a previous command from the highest authority of Tokio to the effect that the mission of the Japanese army in Manchukuo did not include manipulation of autonomy for Chinese provinces.

The command is understood to mean that Japanese armed forces in Manchukuo—the only ones on the continent capable of enforcing imperialistic schemes for Japan cannot be permitted to cross the Great Wall without an imperial order.

Imperial orders are issued only in the most grave crises—a state which is considered authoritative to exist at present in North China.

A strong element of the army is insisting that North China's autonomy plan be carried through. According to political experts, the issue will be debated in a meeting of the Cabinet tomorrow. It is expected Koki Hirota, the Foreign Minister, will be pitted against Gen. Toshiyuki Kawashima, Minister of War, in the debate. Experts say the life of the Cabinet may possibly depend on the outcome.

Compromise Suggested.

Hirota is expected to support the compromise suggested by Ambassador Akira Ariyoshi, following his interview yesterday with Generalissimo Chiang Kai-shek, by which Nanking would be permitted to retain a considerable degree of sovereignty in North China.

The newspaper Asahi asserts that Ambassador Ariyoshi, whom the military leaders have accused of softness in dealing with the Chinese, submitted his compromise proposal to Tokio with the comment,

"This is likely to be my last service to the Emperor," indicating he would resign if the army leaders prevailed.

The Rengo News Agency says Chiang assured the Ambassador that the National Government was drafting plans for a new administration in North China which would be more satisfactory to Japan.

After the interview, says Rengo, Chiang telegraphed to all North China leaders commanding a halt in autonomy schemes, in which they had exceeded their authority. He told them any new administration in North China must be established by the Nanking Government in consultation with its neighbor, Japan.

The diplomatic consensus in Tokio is that some degree of autonomy in North China is inevitable but that it will differ greatly from the original scheme hatched by Gen. Sung Cheh-yuan, commander of the Peiping-Tientsin garrison, and the Japanese empire builders.

It is predicted that it will be a carefully negotiated arrangement by Tokio and Nanking in which the Chinese Government will endow Nanking's influence in various political ways while the Japanese Government will be careful to "save Nanking's face," to retain the appearance of Chinese sovereignty in the affected provinces.

Nanking Leaders Told to Under-take Own Reforms.

(Copyright, 1935, by the Associated Press.) SHANGHAI, Nov. 21.—Japanese military leaders put it up to the Central Chinese Government today to undertake its own reforms in North China to replace the autocratic movement.

Major-General Rensuke Isogai, Japanese military attache in Shanghai, told the Associated Press there was a strong possibility the Nanking Government would take independent action to improve conditions in the Northern provinces and

Charlie Chase and Joyce Compton, stars of Charlie Chase Comedies, had good reason to be surprised when his faithful Model T started like a jackrabbit. It had never happened before—so it's a safe bet that they had Standard's new double-quick-starting gasoline in the tank.

DON'T think for a minute that this new gasoline is so fast that your car is liable to take off before you're ready. It's not that lively. But it is a remarkably fast-starting gasoline. And by that we don't mean a gasoline that simply gives a flash of action and then sputters and chokes when you try to drive away. We mean a gasoline that, even in bitter winter weather, responds to the first kick of the starter, catches hold at once, and gives you full steam ahead in regular mid-summer form.

That's promising a lot. But this gasoline has fully 35% greater warm-up speed, in zero temperatures. So get some of this new Standard Red Crown... and SEE WHAT HAPPENS next time you step on the starter!

Sold by Standard Oil Stations and Dealers everywhere,
at the price of "regular" gasoline

JAPAN HOLDS UP ITS ANNEXATION OF NORTH CHINA

Order From Tokio Defers, at Least Temporarily, the Establishment of Separate Government.

SOME ARMY MEN INSIST ON ACTION

Official Debate on Issue Expected Tomorrow — Life of Cabinet May Depend on Outcome.

(Copyright, 1935, by the Associated Press.) TOKIO, Nov. 21.—The scheme for secession of North China under the protection of the Japanese army was availed today.

An official source says the chief reason for the setback in plans to hew a new government on 96,000,000 persons of five North China provinces was an order by the army high command in Tokio to its subordinates on the continent, stating that officers commanding in a Chinese separatist government were exceeding their authority.

This order, which at least temporarily hampered plans for extension of Japanese military protection to regions south of the Great Wall, was one of the rare instances in which civilian leaders of the Tokio Government made cautious views prevail over military ambitions.

Repetition of Previous Order.

It is understood the order repeated a previous command from the highest authority of Tokio to the effect that the mission of the Japanese army in Manchoukuo did not include manipulation of autonomy for Chinese provinces.

The command is understood to mean that Japanese armed forces in Manchoukuo—the only ones on the continent capable of enforcing imperialistic schemes for Japan—cannot be permitted to cross the Great Wall without an imperial order.

Imperial orders are issued only in the most grave crises—a state which is considered authoritatively not to exist at present in North China.

A strong element of the army is insisting that the North China autonomy plan be carried through. According to political experts, the issue will be debated in a meeting of the Cabinet tomorrow. It is expected Koki Hirota, the Foreign Minister, will be pitted against Gen. Yoshikuni Kawashima, Minister of War. In the debate, experts say the life of the Cabinet may possibly depend on the outcome.

Compromise Suggested.

Hirota is expected to support the compromise suggested by Ambassador Akira Ariyoshi, following his interview yesterday with Generalissimo Chiang Kai-shek, by which Nanking would be permitted to retain a considerable degree of sovereignty in North China.

The newspaper Asahi asserts that Ambassador Ariyoshi, whom the militarists long have accused of softness in dealing with the Chinese, submitted his compromise proposal to Tokio with the comment, "This is likely to be my last service to the Emperor," indicating he would resign if the army leaders prevailed.

The Rengo News Agency says Chiang assured the Ambassador that the National Government was drafting plans for a new administration in North China which would be more satisfactory to Japan.

After the interview, says Rengo, Chiang telephoned all the North China leaders commanding a halt in autonomy schemes, in which they had exceeded their authority.

He told them any new administration in North China must be established by the Nanking Government in consultation with its neighbor, Japan.

The Times, recalling that at Jutland Lord Jellicoe had the whole allied fortunes in his hands, said:

"British public opinion had educated itself to expect and demand another Trafalgar, and with nothing else could it be truly content."

"It is well to recall with what tenacity in that unprecedented clash of sea power on the day of smoke and obscurity, the cool undramatic commander remembered his supreme responsibility."

The immediate cause of the Earl's death was an illness contracted during the recent Armistice day celebration at the cenotaph here. His illness was not announced until Nov. 17, when a bulletin said the Earl had contracted a chill and would be forced to cancel his engagements for three weeks. His family, including Lady Jellicoe, was at his side when he died at his home in Kensington.

His only son, the 17-year-old Viscount Brocas of Southampton, succeeds to the title of Earl Jellicoe.

GERMAN ARMY SERVICE CALLS

Classes of 1915 and 1916 Ordered to Under-take Own Reforms.

(Copyright, 1935, by the Associated Press.)

SHANGHAI, Nov. 21.—Japanese military leaders put it up to the Central Chinese Government today to undertake its own reforms in North China to replace the autonomy movement.

Major-General Rensuke Isogai, Japanese military attache in Shanghai, told the statement of the Bank of Finland showed today Finland would make its war debt installment of \$200,000 to the United States Dec. 15. Finland has paid regularly—the only United States war debtor that has not defaulted.

Finland to Pay on War Debt Again.

ADmiral DEAD

LEVIATHAN DEAL AGAIN TORMENTS ADMINISTRATION

Deadline on Which U. S. Lines Was to Have Bids on New Ship or Pay \$1,000,000 Has Passed.

NEW EFFORT TO AVOID COLLECTING FORFEIT

Firm Headed by Roosevelt's Friend, Vincent Astor, Already Has Received Two-Month Extension.

By MARQUIS W. CHILDS, A Staff Correspondent of the Post-Dispatch.

WASHINGTON, Nov. 21.—The administration's deal with the United States Lines, headed by President Roosevelt's close friend, Vincent Astor, to retire the superliner Leviathan has again put the Government in an embarrassing position.

For the privilege of retiring the Leviathan, the United States Lines was to build another ship or pay a forfeit of \$1,000,000. The deadline date was Sept. 16. On that date Secretary of Commerce Roper issued a statement saying that the lines had been asked to revise their plans for the new vessel in accord with the latest safety factors in ship construction. Meanwhile the right to the \$1,000,000 forfeit was temporarily waived, it developed, too, that the company had not submitted original plans for Federal approval by the original deadline.

The date for obtaining bids for construction of the new ship was extended by Roper to Nov. 16. Roper's statement issued Sept. 16 ended with the assertion that if bids were not obtained by Nov. 16 the forfeit would be collected.

No Bids, Company Says.

It was disclosed recently that the company on Nov. 16 reported it had invited four of the largest shipbuilding companies to submit bids for construction of the new ship and that no bids had been received. Department of Commerce officials said that this unprecedented situation was being investigated. President Roosevelt, too, made known that there was an inquiry into the matter.

At his press conference Tuesday the President said tersely that he knew nothing further about the United States Lines deal. The previous night Vincent Astor and Kermit Roosevelt and the crew of Astor's yacht, the Nourmahal, on which the President has frequently cruised, were entertained at the White House.

Secretary Roper at his press conference yesterday said that the investigation into the failure of the shipbuilding companies to bid was being made through the United States Lines. The inquiry had not progressed to a point where inquiries were being made of the shipbuilding firms themselves, Roper said.

But Roper and his aid, J. M. Johnson, both were hopeful that a boat would be built. Johnson, on whom Roper placed most of the responsibility for the present investigation, expressed this hope again today. Under the terms of the contract for the laying up of the Leviathan, Johnson explained, the Government is to advance to the United States Lines a loan of 75 per cent of the cost of the new vessel.

Forfeit "Not Conditional."

According to Roper and Johnson, the United States Lines reported inability to obtain bids would "not necessarily" free the company from paying the million dollar forfeit. Johnson stressed the fact that the forfeit was "not conditional."

"The Secretary can extend it," Johnson replied when asked if the contract would expire Dec. 16 and the forfeit automatically become collectible.

"Is it going to be extended?"

"Well, we don't want to say anything about that right now."

Under the terms of the original contract to operate the Leviathan, the Manhattan and other passenger vessels in the European trade, the United States Lines was allowed a considerable sum by the Government for which it was assumed would result from the operation of the Leviathan. Operation of the big liner was specified in the contract because of the prestige it would lend to America's merchant marine.

It was brought out at yesterday's conference that although the United States Lines has received large Federal mail subsidies, supposedly in the interest of creating a merchant marine, the company has not laid down a single keel for a new ship in that period.

Johnson said today that he was in "almost daily contact" with the United States Lines and said that

BUDAPEST POLICE USE SABERS TO BREAK UP ANTI-JEW RIOTS

Student Demonstrators Fight; Anti-Czech Outbreak in Warsaw; "Aryans" Organize.

BUDAPEST, Hungary, Nov. 21.—Police used sabers to break up an anti-Semitic riot in the Budapest Conservatory of Music today, wounding some of the rioters. A brisk fight raged in and around the building.

The students first attempted a demonstration at Budapest University, which was closed because of the disorders. Police arrested about 100 students.

The demonstrators then marched through the Jewish district and made the assault on the Conservatory of Music.

Anti-Jewish feeling was manifest at Szeged, where the police, using the flats of their sabers, drove students from the university. As they retreated, the demonstrators smashed windows of stores operated by Jews and agitated for a boycott of Jewish business.

WARSAW, Nov. 21.—Eleven windows in the legation of Czechoslovakia were smashed today in an anti-Czech demonstration. Police dispersed the crowd. Police also inquired into the recent anti-Semitic student demonstrations.

A group of "Aryan" Polish students decided yesterday to address a fellow Aryan hereafter as "colleague" but a Jew only as "mister." A Polish girl walking with a Jewish student was compelled to promise she never again would be seen in the company of a Jew, while a Polish male student, walking with a Jewish girl student, was beaten.

WALLACE DENOUNCES CRITICS OF CANADIAN TRADE PACT

Secretary, in Radio Speech, Declares "Enemies of Agriculture" Are Attacking It.

WASHINGTON, Nov. 21.—Farmers were urged by Secretary of Agriculture Wallace today to ignore those whom he called "enemies of agriculture" attacking the new Canadian-American trade treaty.

Publicly praising the treaty for the second time in two days, Wallace said in a radio address that it was one of the "most hopeful and helpful things for American agriculture" that had happened in a long time.

"When anyone says it is going to harm agriculture, ask him to supply the evidence—all the evidence, and ask him to include in that evidence the general welfare of the whole United States. The Canadian agreement is going to benefit American agriculture as a whole. The agreement is designed to avoid injuring any American producing group, and in my judgment does avoid such injury."

Witnesses said the Leftists fired at the approaching Gold Shirts, precipitating a general fight which lasted more than half hour before police restored order.

They encountered 5000 workers and agrarians who were listening to speeches by David Alfaro Siqueiros, noted painter and Communist leader, and other Leftists in front of the national palace.

Witnesses said the Leftists fired at the approaching Gold Shirts, precipitating a general fight which lasted more than half hour before police restored order.

Among five men arrested was one charged with firing at Louis Rodriguez, secretary to President Lazaro Cardenas. Standing on the balcony of the palace, he made an unsuccessful attempt to prevent the clash.

He called on Victor Emmanuel while en route to Greece to become the world's newest King. The honor has been conferred on other foreigners, included Emperor Haile Selassie of Ethiopia, who received it on a visit to Italy in 1924. Only 22 Magda Lupescu.

TWO MEN KILLED, 47 HURT IN CLASH AT MEXICO, D. F.

Workers Fight Members of Nationalistic Gold Shirt Organization in Front of National Palace.

By the Associated Press.
MEXICO, D. F., Nov. 21.—Two persons were killed and 47 injured here yesterday in an armed clash in which the nationalistic Gold Shirts participated. Workers' organizations threaten a general strike unless the Government orders immediate dissolution of the Gold Shirts.

Gen. Nicolas Rodriguez, leader of the Gold Shirts, received two serious knife wounds in the fighting before the national palace. Several others of the wounded are not expected to survive.

The dead are J. Trinidad Garcia and Carlos Vela, workers and opponents of the Gold Shirts. Radical leaders, asserting several others have succumbed to wounds, estimate the deaths at eight.

The Gold Shirts, organized two years ago as the Mexican revolutionary action with a nationalistic, anti-Semitic program, ignored threats that they would be attacked and turned out more than 2000 strong to parade yesterday. It was the twenty-fifth anniversary of the revolution.

They encountered 5000 workers and agrarians who were listening to speeches by David Alfaro Siqueiros, noted painter and Communist leader, and other Leftists in front of the national palace.

Witnesses said the Leftists fired at the approaching Gold Shirts, precipitating a general fight which lasted more than half hour before police restored order.

ITALIAN MONARCH HONORS KING GEORGE OF GREECE

New Ruler, on Visit in Rome, Is Awarded Collar of Order of Annunziata.

By the Associated Press.

ROMA, Nov. 21.—King George of Greece became an honorary cousin of King Victor Emmanuel of Italy today, when the Italian monarch awarded him the collar of the Order of Annunziata.

Witnesses said the Leftists fired at the approaching Gold Shirts, precipitating a general fight which lasted more than half hour before police restored order.

Among five men arrested was one charged with firing at Louis Rodriguez, secretary to President Lazaro Cardenas. Standing on the balcony of the palace, he made an unsuccessful attempt to prevent the clash.

He called on Victor Emmanuel while en route to Greece to become the world's newest King. The honor has been conferred on other foreigners, included Emperor Haile Selassie of Ethiopia, who received it on a visit to Italy in 1924. Only 22 Magda Lupescu.

Anti-Lupescu Prisoners Freed.

By the Associated Press.

BUCHAREST, Romania, Nov. 21.—Professor Gerots and three generals, arrested on charges of harboring anti-Lupescu prisoners, were released yesterday. It was stated an investigation was continuing, but it generally was believed the men would not be tried because authorities are trying hard to avoid a public airing of King Carol's relations with Madame

Inians have been so honored, among them Premier Mussolini, King George and King Victor Emmanuel talked alone for some time at the Quirinal Palace. Later today George met Premier Mussolini.

On his letter to Jones agreeing to payment of the notes Dec. 1, Vanderbilt said the railroad could retire the \$15,600,000 of notes "without recourse to any borrowing."

Jones said he was informed the company's cash position had improved to the extent that it expected to be able to cut down its present debt at the rate of \$12,000,000 to \$15,000,000 a year.

He added that the agreement was satisfactory to the railroad's bankers.

He said they had agreed to carry its loans on the present demand basis until some definite financing plan could be provided.

Extracts from the Diary of an Inexperienced Executor

JAN. 10th:

Father was pretty generous in his will. He has made a number of bequests and devises to charity and to relatives. But the residue which goes to mother, sister and myself should be adequate.

FEB. 4th:

The largest specific devise in father's will is that of his Wellston property to his favorite charity.

MAR. 20th:

(One year later) Have filed my final settlement with the Probate Court.

LETTERS FROM THE PEOPLE

The Root of the Infection.

To the Editor of the Post-Dispatch:
THE farm problem, so far as the Federal Government is concerned, has been treated as a symptom since 1925. The distress of agriculture has been a disease, not its symptom. A diagnosis of the case shows clearly that the root of infection is in the cost of transportation.

In 1924 the American farmer exported 285,000,000 bushels of wheat, valued at more than \$400,000,000. During the year 1932, the mid-continent states produced 512,000,000 bushels of wheat, yet our total exports of wheat from July, 1932, to June, 1933, were only 33,000,000 bushels, valued at about \$29,500,000. In fact, Argentina and the Danubian countries have literally driven us out of Europe so far as grain exports are concerned. These countries have used their rivers as a means of providing cheap transportation, whilst we have bet on the wrong transportation horse.

Visualize the State of Iowa, for example, which, in the year 1932, produced within its 56,141 square miles the enormous total of 784,000,000 bushels of grain; the abundance of its yield has not been equaled anywhere else on the face of the earth. Yet, despite such a bounteous production, many of Iowa's farmers were on the brink of ruin. The incongruity of the situation does not stop there; five out of the six trunk lines traversing the State from east to west are now in bankruptcy.

The Rock Island Railway charges 18.6 cents per bushel for transporting wheat from Salina, Kan., to Chicago, 641 miles; yet the same bushel, upon being transshipped into a lake steamer, moves from Chicago to Buffalo, 900 miles, for only 1½ cents. This railroad is now bankrupt, but the lake steamer owners are solvent. What chance has Salina, or any other part of Kansas for that matter, to sell its wheat in Liverpool when it costs more to ship from Salina to Chicago than does from Liverpool to Liverpool? For 50 years, the Missouri River has been running to the sea in idleness, although the states bordering its shores, during the year 1932, produced more than two billion bushels of grain.

PERCY GROVES.

Mr. Rockefeller and the Church.

To the Editor of the Post-Dispatch:

THE recent decision of John D. Rockefeller Jr. not to limit his financial support to one sect, however deserving that sect may be, is commendable.

Is it not time in the Christian world that the thin partitions that separate the many sects be taken down as tenderly as possible and folks be allowed to meet together in the same yellow sunshine?

Sometimes it is hard to conceive of sects in a universe some 600,000,000 light years in diameter.

Maybe Tennyson thought so when he said:

Our little systems have their day;
They have their day and cease to be;
They are but broken lights of Thee,
And Thou, O Lord, art more than they.

PHIL A. WINDMULLER.

Rises in Defense of Kansas.

To the Editor of the Post-Dispatch:

A S the State of Kansas is my territory and all of my traveling in that State is done by automobile, I was quite interested in the letter written by Earl W. Hayter which appeared in your column several days ago.

It is my opinion that U. S. Route 40 from Kansas City to Topeka is much better than U. S. Route 40 in Illinois from East St. Louis to Collinsville was previous to the reconstruction which commenced some time ago. However, traveling men who cover Kansas regularly know that there is a better route from Kansas City to Topeka, this being Kansas Route 10, and I would suggest that the next time Mr. Hayter is making a trip to Topeka he use this route.

I will admit that in the State of Kansas there is quite a number of oil-covered roads and "rubber roads" as they are termed in that territory, and that the curves on quite a number of these roads are not banked. However, this type of road is being gradually replaced with new type concrete highways.

I believe statistics will show that there are fewer accidents in Kansas than in either Illinois or Missouri, and this might be attributed to some extent to the type of highway which has been generally used in the past, as these highways were not built for speed.

As far as I know, Kansas has no sales tax which visitors from other states are compelled to pay, which is the condition in Illinois and Missouri.

CHAS. H. APPEL.

Ticket for John Barleycorn.

To the Editor of the Post-Dispatch:
I N a recent editorial you stated, with reference to the mounting number of motor accidents in St. Louis, that "death was at every corner." Since that was written, the number has become still higher until for one week it was something like 100, with over 100 victims sent to hospitals.

No doubt death will continue to be at every corner as long as John Barleycorn operates at so many corners and in between. He has been guilty of a lot of things in the past; it is preposterous to suppose that he would frequently get up a little speed and recklessness in the operation of a car?

Jonesburg, Mo. EMMA GODFREY.

MR. HOOVER SPEAKS OUT OF TURN.

Mr. Hoover is out with a blast against the new trade agreement between the United States and Canada. Mr. Hoover is the man who signed the Hawley-Smoot tariff bill of 1930 and who in the presidential campaign of 1932 preached the high-tariff doctrine with increasing fervor.

Will his attack on the trade agreement advantage Mr. Hoover in his effort to rally and unite the Republican party? Let us see.

It has become more and more evident that the Hawley-Smoot Act, which drew the fire of many leading industrialists, such as Henry Ford, to say nothing of the considered protest of more than 1000 economists, was as mad a piece of folly as has ever been perpetrated by Congress in the sacred names of "protection" and "preserving the American standard of living."

How tawdry are those ancient shibboleths! The American standard of living, under the impact of unemployment, went down steadily after 1930. The "protection" accorded by the Hawley-Smoot monstrosity played a large part in the strangulation of world trade and in driving American companies to establish factories abroad.

How fantastic, in the light of events, becomes that immortal speech by Senator Jim Watson, a high priest of protection, prophesying that within a year the Hawley-Smoot tariff would cure all the economic ills of the nation!

It is impossible to be restrained in speaking of Mr. Hoover's continued championship of the Hawley-Smoot Act. For that is what his denunciation of the tariff agreement we have just concluded with Canada amounts to. The agreement puts us back, in respect to a long list of commodities, on a pre-Hawley-Smoot basis. Of course it is not perfect; no tariff arrangement can be. But when Mr. Hoover condemns it as another instance of "hasty economic planning," he invites comparison with the "economic planning" that went into the writing of the Hawley-Smoot bill. That planning consisted in the most unconscionable log-rolling ever practiced in the halls of Congress. Even some of the most ardent champions of protection held their noses as they voted for the result.

When Mr. Hoover signed the Hawley-Smoot bill, he said that the flexible tariff provisions would permit its inequities to be scientifically examined and cured. We are aware of no cures of any moment under Mr. Hoover. The Reciprocal Tariff Act of the present administration offers a way to work improvements, and the agreement with Canada represents a useful concrete application of that act.

When Mr. Hoover says he presumes the agreement is "more of the more abundant life—for Canadians," he indulges in a sneer that would be more excusable in a candidate on the stump than it is in an elder statesman avowedly interested only in the clarification of issues.

Of course it is expected that the pact will produce benefits for Canada. It is intended to do that. It is intended to aid both Canada and the United States. Mutual benefit is of the very essence of the contract.

Protests have come, as they were bound to come, from sectional interests. In the light of objections which have been raised by some farmers' organizations, it is interesting to note that William Hirth, president of the Missouri Farmers' Association, wholeheartedly endorses the agreement. Mr. Hirth has the good sense to see that American farmers, as well as manufacturers, will profit from a Canadian business revival. He hails the agreement as a "truly constructive achievement" and hopes that it will break the ice for similar agreements with other nations.

At Hodgenville, Ky., is the pathetic little cabin where Abraham Lincoln was born, the shrine of thousands of admirers of the Great Emancipator. The surrounding countryside is still very much as it was when Lincoln lived there, hardscrabble fields with rail fences and hills crowned with pine and maple and oak. But what might have been a charming illusion is dashed when the traveler finds the Lincoln cabin housed in a monumental Greco-Roman edifice.

The homage our age pays to the architecture of the Greeks is a fitting tribute to beauty and genius, but why should such typically American things as Plymouth Rock and Lincoln's cabin have their flavor thus destroyed?

roles, by "fixing" in the courts. It is the duty of good citizenship in St. Louis to back up the efficiency of its police by striving tirelessly to bring about the reform of conditions that now tie the hands of law enforcement.

JUDGE FARIS.

Perhaps it is too early to comment on Judge Faris' retirement from the bench. His love for the jealousies he has served for so many years will not automatically terminate Nov. 30, the retirement date, and the chances are that the provision for special assignment will find him active for years to come. So, for the present, until his illnesses respond to treatment, it is merely *au revoir*.

Few Judges in the history of St. Louis have made so deep an impress as Judge Faris, or have won such confidence, esteem and affection. Not long ago, when Judges Davis and Moore were holding ceremonies at the old Federal Building prior to removal to their new quarters, Judge Davis read off a list of the men who had served as Federal District Judges here. When he came to Judge Faris' name, there was a spontaneous outburst of applause from an audience composed largely of lawyers and court attaches. A prophet was being honored in his own country.

Judge Faris' many attainments combine to make him an ideal jurist. The law is at his finger tips. He is never at a loss to rule on a legal point. Lawyers have often stood amazed as he recited off citations from memory, giving the style of the case and even the page number. His zeal for justice has often been displayed, as, for instance, in taking over the questioning of a witness whose own blundering lawyer failed to handle it properly. A lively wit enlivens proceedings before him, and his opinions are masterfully clear and concise.

The guiding rule of Judge Faris' tenure was drastic independence. He demonstrated the wisdom of those who specified that Federal Judges should sit for life, thus freeing them from the many considerations which distract elected Judges. Further to assure his freedom of thought and action on the bench, Judge Faris safeguarded himself from possible opportunities of friends and acquaintances by becoming a veritable recluse. Rarely has he been seen at dinners and he even forswore the playing of golf to heighten the barrier that should hedge a man in his position.

However, we are merely saying *au revoir* to the Judge and there is only to add best wishes for a speedy recovery.

GREEK TEMPLES AND AMERICAN SHRINES.

A news photograph in Tuesday's Post-Dispatch recalled the fact that Plymouth Rock, the landing place of the Pilgrim Fathers, is surmounted by a structure modeled after a Greek temple. Could anything be more incongruous than to commemorate a historical event that smacks of Cotton Mather, codfish, Jonathan Edwards, Chief Massasoit, wild turkeys and the founding of a new land in the wilderness with something borrowed from ancient Athens?

At Hodgenville, Ky., is the pathetic little cabin where Abraham Lincoln was born, the shrine of thousands of admirers of the Great Emancipator. The surrounding countryside is still very much as it was when Lincoln lived there, hardscrabble fields with rail fences and hills crowned with pine and maple and oak. But what might have been a charming illusion is dashed when the traveler finds the Lincoln cabin housed in a monumental Greco-Roman edifice.

The homage our age pays to the architecture of the Greeks is a fitting tribute to beauty and genius, but why should such typically American things as Plymouth Rock and Lincoln's cabin have their flavor thus destroyed?

NOBODY WILL STARVE.

There has been widespread criticism of Federal relief policies. There have been many attacks upon the form of projects chosen for construction through WPA. There have been onslaughts upon the red tape, the quarrels, the duplications of effort, the waste, the vacillations that have marked relief efforts. But when the President tells the conference of Mayors in Washington that "the Federal Government does not propose to let people starve after the first of July any more than during the past few years," he states the fundamentals of a policy that admits of no humane dissent. The only question is how that policy shall be carried out.

It had been hoped that the Federal Government could shortly withdraw its aid to the needy. Mr. Roosevelt himself has said that the Government "must and will quit this business of relief." But if the need continues, if private business cannot give sufficient employment and if the communities are unable to provide the necessary help, then the only humanitarian course is obviously to continue Federal relief. No one could be so callous as to say that after a certain date the destitute must be left to their fate.

This broad definition of policy by no means diminishes the validity of many of the criticisms that have been directed against the Government's relief activities. If these activities are to be more prolonged than had been expected, there is all the more reason for establishing them on a sound basis.

Mr. Roosevelt seems to acknowledge as much when he says: "All of us have learned a lot, but we still have much to learn." Along with the resolve that there shall be no starvation there should be a decision that waste and inefficiency shall be reduced to a minimum.

IN CASE.

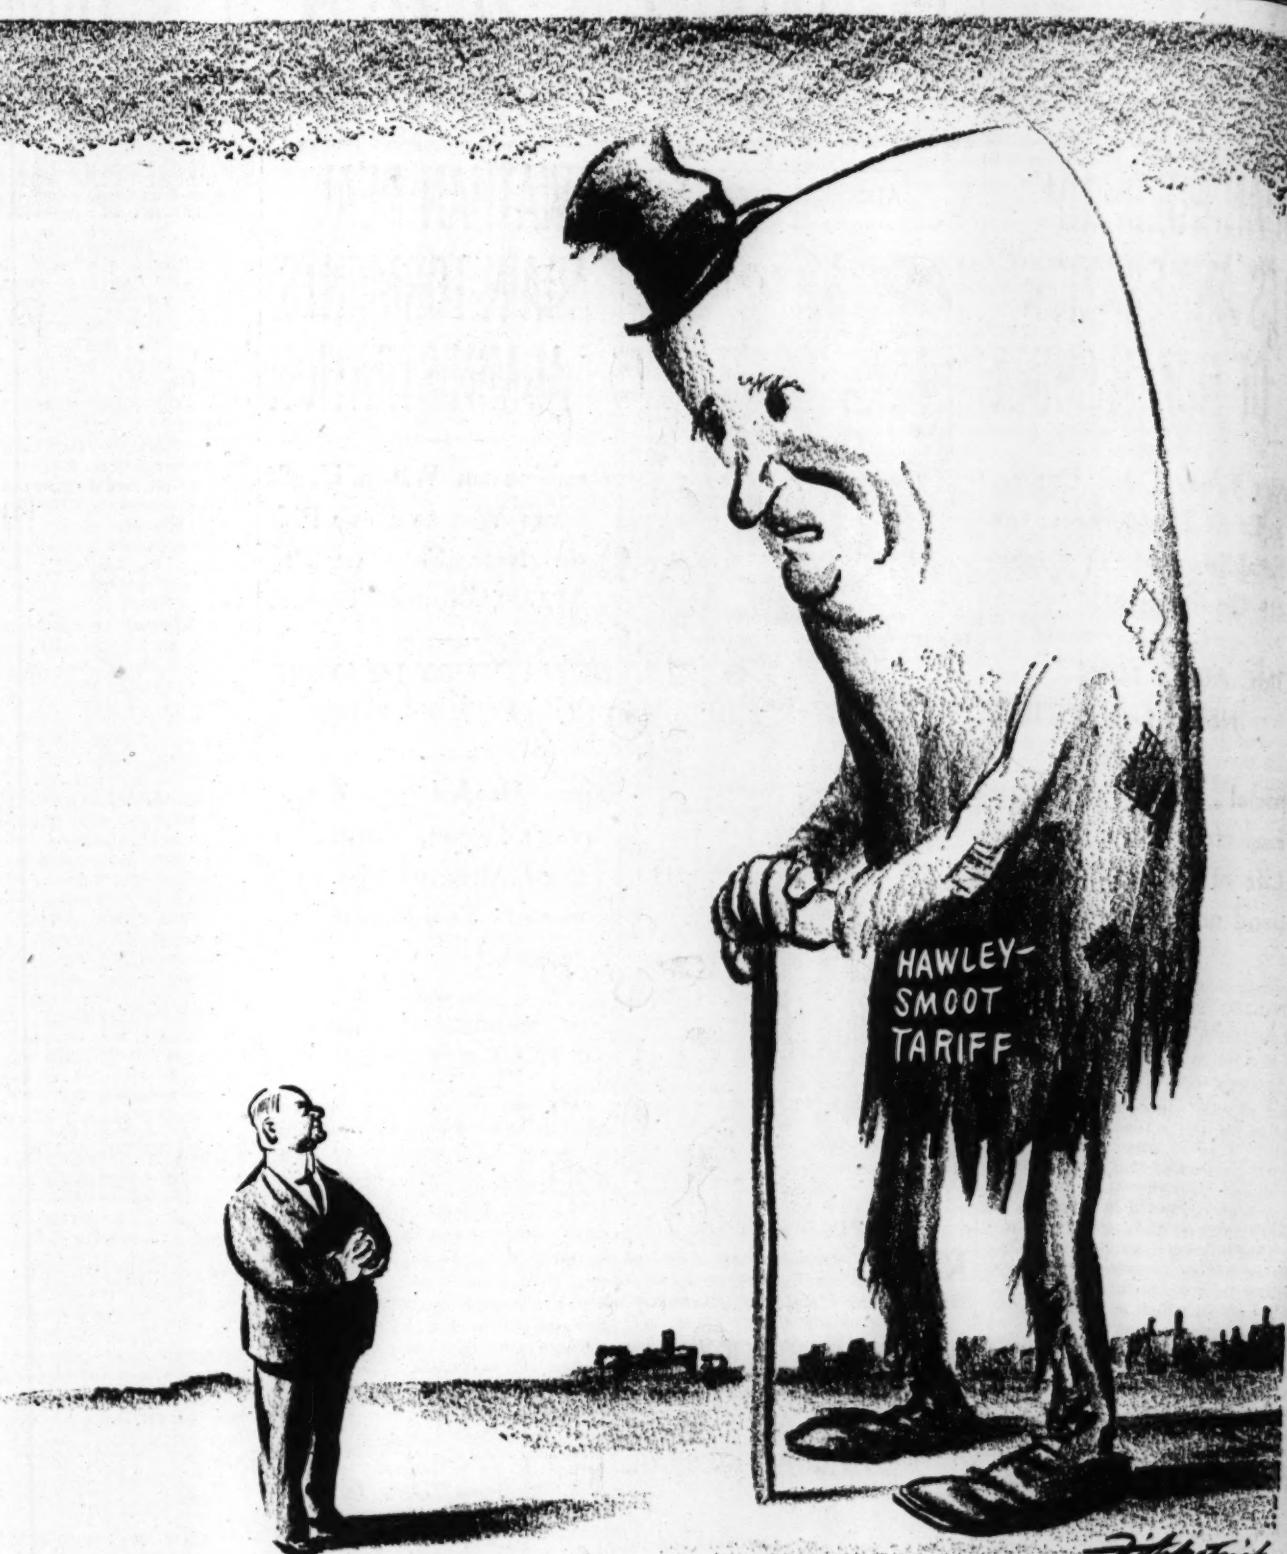

Mr. Roosevelt was talking to the Mayors. Said he: "We haven't had a (tax) revision and I think the time is coming—not this coming session of Congress, because we hope that it will be a very short session—but by the following year, when all of us can get together and work out a better system of taxation." Just in case anyone was in doubt as to Mr. Roosevelt's opinion of who is going to be in charge of a minimum.

PRAISE FROM SIR HUBERT.

Praise from the next-in-command of the Federal Bureau of Investigation may properly be regarded by a police department as the modern counterpart of praise from Sir Hubert Stanley; namely, "praise indeed."

The St. Louis police have just been honored by such commendation, delivered by Harold Nathan, assistant director of the "G-men." St. Louis, he said in an address here, has "an able Police Department." More than that, "There is no better or more efficient organization that I know of." These words, derived from the experience of a veteran Federal law enforcement executive familiar with the qualities and shortcomings of police over the nation, are "praise indeed."

Adequate law enforcement requires more than an efficient police organization, of course, and Mr. Nathan acknowledged the fact. It depends, he said, on proper control of criminals and their disposition after an efficient police force has apprehended them. This is a factor too often lost to view in considering the problem of crime. Police vigilance too frequently is offset by the loopholes in the archaic criminal code, by judicial laxity, by the machinations of unscrupulous lawyers, by unjustified pardons and pa-

"WE STARTED THE MORE ABUNDANT LIFE, DIDN'T WE, HERBERT?"

Japan's Newest Inroad Upon China

"Imprudent and Unfair"

From the Kansas City Times.

H IN his ruling upon the validity of contracts under which the Missouri Pacific Railroad agreed to purchase certain terminal properties in North Kansas City and St. Joseph, Judge Charles B. Faris of the United States Circuit Court of Appeals has supplied additional evidence of the necessity for the regulation of holding companies in the public interest. In view of the recent decision of a Federal District Judge in Baltimore that the Wheeler-Rayburn Act, providing for regulation of utility holding companies, is unconstitutional, this evidence is particularly interesting.

The refusal of foreign nations to recognize the new Government in Manchukuo is the first attempt made by Japan to obtain control of any part of China proper, although it is the third that has been made to control territory formerly under Chinese domination. Both those earlier attempts have been successful.

The Japanese have now been in possession of Korea for a term of years. They have made it a province of Japan without any attempt to form a local government. In Manchukuo, they have established a local government which is apparently in all respects according to Japanese wishes. Something of the same sort doubtless is contemplated for North China.

Korea was never anything more than a vassal state of China, having its own King and Government. Its absorption by Japan was not felt vitally by the Chinese. Manchukuo (Manchukuo) was the home of the Manchu nation before it conquered China. When the Manchu dynasty was dethrown, the obvious course would have been to expel its members to their former Kingdom, instead of which the Chinese retained control of Manchuria as if it had always been a part of China proper.

As a matter of fact, there were and are very few Manchus left in Manchuria; most of the population having followed their Emperor south to China when he took control. The Japanese evidently regarded Manchuria as a place where their surplus population might expand. This hope has not been justified by the event.

The Japanese will not colonize Manchuria because it is too far north. Those who would like to change too many of their customs and modes of life. But the Chinese have been moving north into the territory by millions, and it is now occupied almost entirely by a purely Chinese population.

North China is already well filled. It is regarded by most persons as overpopulated, although the Chinese will not admit this. Many intelligent Chinese have told me, "China is not overpopulated, although the population may be badly distributed." This movement into Manchuria may be regarded as the first step toward a redistribution, but there is hardly any room for Japanese colonization in any part of China.

The appearance of the Chinese countryside is deceptive. To an American riding through it on the train, it appears very much like the prairie country of Illinois or Kansas—everywhere cultivated fields but few indications of inhabitants. The reason for this is evident when the train passes a populous walled city in which most of the dwellers are farmers. They have huddled for protection, but go out daily to work on their farms, which may be many miles distant. If these farms are to be occupied by Japanese, a corresponding number of Chinese will have to starve or be killed off. I think, however, that few would anticipate any such action.

One interesting question raised by the forthcoming action in North China is the status of the various embassies and other diplomatic bodies gathered in Peiping in what is known there as the Legation Quarter. This is practically a small fortified town in the center of the city, and a very

large sum has been expended there on buildings and equipment. This explains the unwillingness of the legations to move to the new capital at Nanking. Since the removal of the seat of government, the situation has been very much as if all foreign embassies and legations in this country were in New York while the capital remained at Washington.

The refusal of foreign nations to recognize the new Government in Manchukuo is the first attempt made by Japan to obtain control of any part of China proper, although it is the third that has been made to control territory formerly under Chinese domination. Both those earlier attempts have been successful.

The Japanese have now been in possession of Korea for a term of years. They have made it a province of Japan without any attempt to form a local government. In Manchukuo, they have established a local government which is apparently in all respects according to Japanese wishes. Something of the same sort doubtless is contemplated for North China.

Korea was never anything more than a vassal state of China, having its own King and Government. Its absorption by Japan was not felt vitally by the Chinese. Manchukuo (Manchukuo) was the home of the Manchu nation before it conquered China. When the Manchu dynasty was dethrown, the obvious course would have been to expel its members to their former Kingdom, instead of which the Chinese retained control of Manchuria as if it had always been a part of China proper.

As a matter of fact, there were and are very few Manchus left in Manchuria; most of the population having followed their Emperor south to China when he took control. The Japanese evidently regarded Manchuria as a place where their surplus population might expand. This hope has not been justified by the event.

The Japanese will not colonize Manchuria because it is too

The DAILY WASHINGTON MERRY-GO-ROUND

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON, Nov. 21.

MONG the inner hierarchy of

the Republican National Com-

mittee, two conclusions have

been reached regarding Herbert

Hoover:

1. That he is definitely a can-

didate for the 1936 nomination.

2. That he has an organization,

simply supplied with funds and en-

ergetically pushing his campaign.

The G. O. P. moguls—privately

hostile to the ex-President—credit

Ogallala Miller, Secretary of the Treas-

ury in the Hoover Cabinet, with be-

ing the mastermind and chief

financial "angel" of Hoover's drive

to new heights.

When the President summoned

Eccles to Washington and made

him head of the Federal Reserve

Board, Adams went down for the

count. But he was put out.

He has just made himself the

leading Utah critic of the Demo-

cratic administration. At the

Bankers' Association convention in

New Orleans so bellicose was his

opposition that he ran as an open

anti-New Deal candidate and was

left of the Flyers' bench have

been reserved for the debutante

corsets.

According to Republican National

Committee reports, Hoover is pur-

suing two lines of strategy in his

push for the nomination.

One is to encourage rival can-

candidates, such as Col. Frank Knox and

Gov. Alf Landon, to believe that if

Hoover cannot get the nomination

he will throw last-minute support to them.

In confirmation of this, it is re-

ported that several hours before

Landon made his recent Cleveland

speech, he conferred over the long-

distance phone with Miller.

Second, in states where Hoover

himself would not stand a chance

of getting delegates, "straw men"

in the guise of "favorite sons" are

being put into the field.

This strategy is behind the re-

cently developed presidential bee of

Walter Kohler, bathroom fixture

manufacturer and ex-Governor of

Wisconsin. When Hoover was in

the White House Kohler was one of

his close friends.

G. O. P. men of the former Presi-

dent are now saying that Kohler

has no hope of getting the nomina-

tion and that once he gets control

of the Badger State delegation, he

can be swung to Hoover at the last

moment.

Tough Jim Farley.

Job-seekers still crowd into

the waiting room of the Demo-

cratic National Committee in

Washington. In an unbroken

stream, from 9 to 5, they come,

patiently, staring at a sign

which reads:

"Please approach desk of recep-

tionist one at a time."

Conspicuous in the crowd recent-

ly after with a nervous

manner. Across his knees he held

a leather case. Protruding from

the case was the butt of a double-

barreled shotgun.

The hopeful who sat next to him

stared hard. After a time he said:

"Pardon me—but will a shotgun

help me get a job?"

The armed gentleman whispered back:

"I understand it takes more than this."

Old Rivals.

BEHIND the election of Orval

W. Adams, violently anti-New

Deal Salt Lake City banker, as

second vice-president of the Ameri-

can Bankers' Association, is an in-

teresting story of a long-standing

feud.

For years a hot rivalry has ex-

isted between Adams and Mariner

S. Eccles, head of the Federal Re-

serve Board. Both fought for lead-

ship of Utah banking—with Eccles

always a lap or two ahead of

his older and more orthodox oppo-

nent.

Adams entered banking in Hiram,

Utah, a suburb of Logan, Eccles'

home town. Subsequently, Adams

went to work for Eccles, but soon

branched out on his own. Eventual-

ly he became head of the Utah State

National Bank of Salt Lake City.

This institution is closely connect-

ed with the Mormon Church and han-

ds its finances.

Meanwhile Eccles was rapidly

forging forward, also becoming

head of manufacturing and mining

interests and of Utah's leading

banking system.

In 1932 political differences were

(Copyright, 1935.)

General Johnson's Article

There Is No Need for Inflation of the Currency, He Writes, and Government Should Assure People It Is Not Intended.

By GEN. HUGH S. JOHNSON.

WASHINGTON, Nov. 21.

IN 14 SEPARATE and widely

varying open forums, conducted

in seven states, 137 separate ques-

tions have been asked me.

While they canvassed searching-

every phase of public affairs, few

showed any grasp of our most dan-

gerous tendency—the possibility of

price inflation.

"Reckless extravagance," "head-

long plunges into debt"—all tax-

payers understand these political

catch-words and duly break in

at the meetings to demand that

they be answered.

But the mystery of money knew enough

to ask good questions. They talk

about "printing money," call it "in-

flation" and are afraid of it.

A sufficiently spread belief that

government, through necessity or

intention, is going to make money

worthless by any or all these

means.

There is no necessity with us. The

best thing that could happen just

now is an unqualified certainty

that there is no intention either.

(Copyright, 1935.)

JACKSON, Miss., Nov. 21.—Calling a candidate a "thief" or a "liar" in the last five days preceding an election is forbidden under a model Mississippi "corrupt practices" act which awaited the signature of Gov. Sennett Conner today. The offended candidate is permitted to sue for damages. Legislative action was completed on the bill yesterday.

TWO HELD IN POISONED BAKING SODA DEATHS

San Francisco Department Store Executive and Wholesale Dealer Give Bond.

Special Feature Plate
for Thursday

Chicken Pot Pie with Fresh Vegetables, Rich Gravy, Flaky Crust

12c

IN THE CAFETERIA

Hotel de Soto

By the Associated Press.

SAN FRANCISCO, Nov. 21.—Two men are under arrest in the investigation of three deaths and 13 cases of severe illness which have been linked definitely to poisonous baking soda sold in bulk at bargain prices in a department store.

Dr. J. C. Geiger, city health officer, ordered investigation of 20 other recent deaths, preceded by symptoms that might have been caused by the soda.

Joseph Rosenthal, executive of the department store which sold

800 pounds of the soda, and Nick Manno, proprietor of the wholesale salvaging and distribution company which supplied it, surrendered on warrant charging violation of a city ordinance prohibiting distribution of contaminated foods. They were released on \$250 bail each.

Rosenthal said he was so confident of the purity of the soda he mixed "several scoops" in a glass of water and drank it in the presence of customers who complained. He said he became ill and a doctor told him a mill of magnesia tablet he had taken "probably saved my life." He said he immediately ordered the rest of the soda removed from sale.

Dr. C. D. Leake, Department of Health chemist, said that with the evidence at hand "I can't say there is anything pointing to criminal intent."

Croner T. B. W. Leland discounted rumors that the poison had been mixed into the soda by a maniac.

"These are ridiculous on their face," he said. "We have no idea how the poison got in the soda."

Dr. Geiger said tests disclosed no trace of poison in or on damaged packages from which the soda was dumped into barrels. August Wheeler, who packed the powder in the barrels, denied no one else had handled it before it left Manno's warehouse.

Rosenthal said his store handled no poisons other than "those of a fourth grade, such as antiseptics."

"It would have been impossible for someone to have mixed the poison at the store deliberately," he said, "for that would have required time, and at night we have a regular watchman."

JAPAN HOLDS UP ITS ANNEXATION OF NORTH CHINA

Continued From Page One.

that separation agitation would subside.

His statement followed an assertion by a high Nanking executive that Chinese officials were authoritatively informed that Japanese pressure on North China had been released suddenly.

This authority attributed the about-face directly to insistence by Foreign Minister Koki Hirota at Tokio that autonomy agitation would prejudice Japan's demands for naval parity with the United States and Britain in the London December conference.

Generalissimo Chiang Kai-shek, the executive said, has ordered Northern authorities to suspend negotiations with Japanese militarists, to permit Nanking to handle the situation.

Japanese General's Comment.

Gen. Isogai said: "I understand the Central Government has a plan for Northern reform which may be communicated by Chiang Kai-shek to Akira Iwahashi (Japanese Ambassador to China)."

"The effects of the plan will be closely watched, and we hope it will bring about an enlightened administration."

"If it doesn't, there is likely to be a revival of the North's desire for an autonomous federation, which has been intensified lately, and even danger of Northern independence if conditions grow worse. Certainly the present state of affairs cannot continue."

Isogai said complete economic and financial severance of North China from the Central Government was not necessary, although "removal of the North from the effects of Nanking's monetary program would be a step beginning to Nanking reforms."

The General said radical revision of the Governmental structure was not required.

"The basic principle must be that the various provincial Governors carry out a more enlightened form of Government he asserted.

In addition, there must be complete abandonment of activities disturbing Chinese-Japanese relations in the North, manifested by a continuance of secret anti-Japanese movements."

Isogai expressed the opinion that Japanese troops massed along the Great Wall would be maintained there until there was a definite improvement in the situation.

Commenting on the basic attitude of the Chinese Nationalist Government toward Japan, Isogai said: "At present, there is no indication of a fundamental change. The attitude is still one of double dealing. When China ceases telling the League of Nations and other Powers that Japan is trying to conquer her and gives them the same assurances she is constantly giving Japan, then it will be time to decide whether a change in Nanking's attitude has occurred."

Isogai predicted, "even if China is assisted abroad in its monetary program, it will end in failure."

Isogai said the British had given Chinese false hopes by undertaking to negotiate with other Powers for a loan to China.

He insisted there was a definite possibility of an agreement between Japanese and North China authorities for co-operation in defense against Chinese Communists.

Britain and U. S. Exchange Views on North China Situation.

LONDON, Nov. 21.—The Foreign Office today announced Great Britain and the United States had exchanged views regarding the situation in North China. They are keeping in close touch with the incidents there, pending clarification of the situation, which the British Foreign Office views as "more hopeful."

The halt in plans for the establishment of an autonomous North China is said by an authoritative source to have been due to pressure brought by Great Britain.

It is reported that the British used their influence to stiffen the stand of Generalissimo Chiang Kai-shek, Chinese national leader, in opposition to North China's split from the Nanking Government. At the same time, it is said, the British played a strong diplomatic hand in Tokio to check the handling of the situation by Major-General Kenji Doihara, commander of the Japanese army on the continent.

In well-informed quarters it is stated that the British have assured the Chinese they have no desire to interfere with normal, peaceful Japanese economic penetration of the territory involved.

Leviathan Deal AGAIN TORMENTS ADMINISTRATION

Continued From Page One.

he was confident some arrangement would be worked out.

Were Very Sanguine."

"Yes, we're sanguine; that this will be worked out," he said. "When we have news on that, we're confident it will be good news."

Johnson, a drainage contractor of South Carolina—it will be recalled—was given the place from which Ewing Y. Mitchell of Springfield, Mo., was ousted. It was Mitchell who first brought to light the Leviathan deal. In support of his opposition to the deal for laying up the Leviathan, which he said was in effect a further subsidy to the Astor company, Mitchell cited a letter from Comptroller-General J. R. McCarl.

McCarl vigorously attacked the deal in a letter to Solicitor South Trimble of the Department of Commerce. The Department of Commerce had asked McCarl's approval for the deal.

The McCarl letter was first published in the Post-Dispatch. Department of Commerce officials had declined to give it out or discuss it.

Mitchell was subsequently called before the Senate Committee on Commerce, of which Senator Royal S. Copeland (Dem.), New York, is

THEODORE ROOSEVELT'S SON ACCUSED OF AIR RIFLE SNIPING

He and Classmate Alleged to Have Taken Potshots a Passers-by in Cambridge.

By the Associated Press.

CAMBRIDGE, Mass., Nov. 21.—

Cornelius Van Schaack Roosevelt,

20-year-old grandson of the late

President, and Peter de Florez, 21,

fellow classmate at Massachusetts

Institute of Technology, were ar-

rested last night in East Cambridge

on charges of assault with a dan-

gerous weapon.

The cases were continued for

hearing Nov. 26 and the two stu-

dents were released in bail of \$500

each. The charges under which

they were brought into court carry

a maximum penalty of two and one-

half years in the House of Correc-

tion.

Motorists passing the college

grounds were peppered with air

rifle shot. When a cruising police

car was hit, Patrolman Hugh J.

O'Neill and William P. Crowe inves-

tigated.

They questioned young Roosevelt

and his companion at the Delta Psi

house and said they found an air

gun in an upper room. It was an

imported air gun, they said, firing

pellets somewhat larger than those

of the usual air rifle.

The students were taken to Cam-

bridge police headquarters, where

John Barry, Boston newspaperman,

was telling the desk sergeant he

had been struck in the neck by one

WHEAT MARKET SHOWS STRENGTH ON THE SPOT NEWS

By the Associated Press.

CHICAGO, Nov. 21.—Stimulated by upward swings of foreign markets and by purchases of a round lot of red winter wheat here to be shipped to Duluth provided the market stimulus together with uneasiness about reported likelihood of heat damage to crops in Argentina. Stimulus was reflected in the market, while the Minneapolis wheat market climbed 2½ cents. Chicago wheat market jumped 2½ cents.

Fears of crop damage from threatened excessively high temperatures in Argentina did much to promote the market's rise.

Milling purchases of red winter wheat in Kansas City were as well as in Chicago were.

Wheat closed strong, 1½ to 2½ cents above yesterday's finish. Dec. 60¢ @ 60¢; oats unchanged to 14¢ higher, and provisions at a rise of 20 cents.

The market scored a material advance in price here early today as a result of unusually sharp upturns of quotations at Liverpool.

Cables reported a scarcity of sellers abroad with Argentine shipments cut and little demand for wheat in Canada and Australia.

Opening 91¢, up 1 cent up, December 91¢, the Chicago wheat market held near then these limits. Corn scored 2½ cents to 3¢ higher, and provisions at a rise for the time being altered little. Early in last hour wheat was 1½ to 2¢ up.

Argentina's wheat crop for the week were estimated as totaling only 1,76,000 bushels against 3,824,000 the corresponding week of 1934. The smallness of the new wheat crop is an important factor, and indicates Argentina's export market will difficultly find buyers for contracts. It was added Buenos Aires November delivery of wheat was not at a premium of 2 cents higher over Dec. 60¢, whereas two months ago November and December prices were identical with each other.

Some buyers have taken of reports that persistent rains in France were causing delay to wheat sowing. Under such circumstances, wheat market would be firm tone during much of the time.

Buying was mainly for houses with no concern expressed for future speculative sellers.

Under normal conditions, grain prices advanced in the price advances, though dealings lacked volume.

Under normal conditions, Iowa, Northern Illinois and Indiana imparied firms to corn.

Provisions rose with hog values.

Wheat futures market for December totaled 12,227,000 bushels, corn 6,155,000. Open interest in wheat was 128,991,000, in corn 31,343,000.

ST. LOUIS MERCHANTS' EXCHANGE, Nov. 21.—Wheat market rose 100¢ to \$1.60 May corn 61¢ on the local board. December wheat was bid 1½¢ higher.

Wheat market opened 91¢, up 1 cent. Early in last hour the market was 1½ to 2¢ higher. The close was 1½ to 2¢ higher.

Liverpool market opened 91¢, up 1 cent higher in one case after opening 90¢ up.

The close was 1½ to 2¢ net higher.

In the cash grain market today wheat was 1½¢ higher, corn unchanged to 1¢ lower, and oats 1½¢ higher.

Sales of grain trade on the floor of the exchange were as follows:

Dec. 60¢ @ 60¢; Dec. 60¢ @ 60¢; No. 3 red winter 1.05¢; No. 1 red winter 1.05¢; No. 2 red garyck (light) 1.04¢; No. 3 red garyck (dark) 1.04¢; sample grade hard wheat 88¢.

CORN—No. 4 yellow 62¢, No. 5 yellow 60¢; No. 6 yellow 58¢; No. 7 yellow 56¢.

OATS—No. 3 white 27¢; sample grade mixed 24¢.

Wheat futures market receipts which were 16,500 bushels, compared with 10,500 a week ago and 18,500 a year ago, included nine cars of No. 1 red winter. Corn receipts which were 33,000 bushels, compared with 28,500 a week ago and 28,500 a year ago. Under normal conditions, grain prices advanced in the market, which were 12,000 bushels, compared with 20,000 a week ago and 40,000 a year ago, included five cars local and one through. Hay receipts were two cars through.

BUTTER, EGGS AND POULTRY

Spot quotations for butter, eggs and poultry are based upon transactions on the market.

BUTTER, EGGS AND POULTRY Exchange and trading between wholesale dealers in the production of butter indicate prices paid to shippers and truckers per barrel, delivery, unless otherwise specified.

Market Report: Butter, eggs and poultry market for November 21, as reported by the Louis Daily.

LEAVES—Choice, \$1.50; fair, 90¢.

LEAVES—Common to medium, \$8 per 50.

THURSDAY,
NOVEMBER 21, 1935.**WIFE GETS 6 MONTHS;
SHOT, BLINDED MAN**Expectant Mother Convicted:
Prosecutor and Her Attorney Weep Before Jury.

Auditions for unemployed musicians in St. Louis and St. Louis County, who will be given work by the Works Progress Administration, will start Monday in the headquarters of the Musicians' Union, 305 West Pine Boulevard, Joel Lay, regional director of the Federal Music Project, announced today.

Lay expected the auditions to be completed in about 10 days or two weeks, after which the musicians will be put to work playing in orchestras and bands, giving free music instruction to school children unable to pay for lessons, and participating in singing groups. About 200 will be employed in St. Louis.

Both John Coldiron, defense counsel, and Commonwealth's Attorney L. H. Liles, were in tears as they closed 30-minute arguments. Frank Gray, the woman's husband, whom she accused from the witness stand of having an affair with another woman, also sobbed.

Coldiron asked the jury to accept Mrs. Gray because of "the way she had been treated" by her husband, and to prevent her child from being "born behind prison bars."

Liles declared the evidence proved Mrs. Gray was guilty, and "the meanest woman" ever to go before the court.

He pointed to the Gray's two-year-old son, Richard, and said, "because of this crime this little boy must now lead his father through the darkness for the remainder of his life."

Mrs. Gray pleaded temporary insanity, testifying she could not remember having shot her husband.

Mathematical Chances That Life Exist in Other Parts of Universe Increased.

By the Associated Press
CHARLOTTEVILLE, Va., Nov. 21.—An astronomical star census, by a new method reported to the National Academy of Sciences yesterday, increases the theoretical mathematical chances of life like that on earth existing elsewhere in the universe.

The report does not discuss the possibilities of life, but shows a larger number of stars the size of our sun than previously identified.

Its new star census fits directly into the statistics by which astronomers have been calculating the chances that there might be other suns with planet families and evolution just like ours.

Such an "accident" was once considered remote. Late the most incredible multiplication in the estimated numbers of stars has caused astronomers to consider the "accident" of exact similarity more possible. The census shows the existence of an increased number of specific places where there might be duplication.

The star count was made on "warf" and "giant" stars by P. Van de Kamp and A. N. Vasyatko of the Leander McCormick Observatory, University of Virginia.

Broadly speaking, there are two kinds of stars, dwarfs and giants.

Our sun is a dwarf. Most of the stars visible to the naked eye are giants.

A small "accident" was once considered remote. Late the most

incredible multiplication in the estimated numbers of stars has caused astronomers to consider the "accident" of exact similarity more possible. The census shows the existence of an increased number of specific places where there might be duplication.

The star count was made on "warf" and "giant" stars by P. Van de Kamp and A. N. Vasyatko of the Leander McCormick Observatory, University of Virginia.

Broadly speaking, there are two kinds of stars, dwarfs and giants.

Our sun is a dwarf. Most of the stars visible to the naked eye are giants.

According to the men who planned up at Francis Field Monday morning there were so many "dead soldiers" under the north stands that it looked as though the Italian-Ethiopian war had been fought there," the editorial stated.

"So far, Washington has had a good record for sobriety at football games. We feel that it is a good record to keep up and we hate to see any tendencies in the other direction. People pay to see football games. It seems to us that it is uneconomical to be in a condition where goal posts lean at strange angles and players become indistinguishable and it is hard to tell whether you are at a football game or at a clambake."

Little Drinking in Student Section at Football Game

Washington U. Paper Reports Bottles Were Under Stand Occupied by Public.

The student sections at the football game last Saturday between Washington and Missouri Universities were "relatively free from drinking," but the stands occupied by the general public "were very far from dry," an editorial in the current issue of the Washington University Student life observed.

"According to the men who planned up at Francis Field Monday morning there were so many 'dead soldiers' under the north stands that it looked as though the Italian-Ethiopian war had been fought there," the editorial stated.

"So far, Washington has had a good record for sobriety at football games. We feel that it is a good record to keep up and we hate to see any tendencies in the other direction. People pay to see football games. It seems to us that it is uneconomical to be in a condition where goal posts lean at strange angles and players become indistinguishable and it is hard to tell whether you are at a football game or at a clambake."

Wall Street Seems to Have
Recovered From Fright
of Previous Session —
French Franc Down and
Bank Rate Put Up.

By the Associated Press.

NEW YORK, Nov. 21.—The stock market rebounded today under the stimulus of heavy buying in the rails, mines and specialties.

While many of the recent leaders were not so buoyant, the majority displayed rallying tendencies. There were numerous gains of 1 to 3 or more points. The close was firm. Transfers approximated 3,000,000 shares.

Although the activity was not up to that of the Wednesday decline, market analysts were cheered by the reversal of sentiment. The weakness of some of the foreign gold currencies, in sympathy with the falling French franc, was not so disturbing as expected. Wheat and cotton moved up briskly. Low priced rail bonds were strong.

National Lead voted an extra dividend of \$1 and International Harvester doubled its 15-cent quarterly rate.

Soldiers of Homestake Mining showed about 10 points and Budd Manufacturing got up more than eight. Other conspicuous gainers included Santa Fe, New York Central, Northern Pacific, Union Pacific, International Harvester, Case, McIntrye, Porcupine, U. S. Smelting, Chrysler, Borden, National Dairies, American Chain, Houdaille-Hershey, Inland Steel, Murray Corporation, Vanadium and Philip Morris.

At mid-afternoon the French franc was off .00% of a cent at 65.58 cents, guilders were down .44 of a cent and Swiss francs were .04 of a cent lower. On the other hand, sterling showed a gain of 1 cent to \$4.93% cents. Canadian dollars were 1-1/2 of a cent firmer at 99 cents.

When finished with a display of wheat up 1% to 2% cents a bushel. Corn was 4% off to 4% up and oats were unchanged to 1% higher. At Winnipeg wheat moved up 1% to 1% cents a bushel. Cotton held gains of 30 to 50 cents a bale.

News of the Day.

Realty circles felt yesterday's shakeout was principally technical. The ability of France to maintain the present gold value of the franc was the subject of much discussion.

It was announced at Washington that Consolidated Gas would refuse to register with the SEC, emanating from the week included flour, wheat, corn, pork, dry salted butter, bacon, cottonseed oil, coco, eggs, rice, hogs, sheep and lambs.

FINANCIAL BAROMETER.

WASHINGTON, Nov. 21.—Despite the recent market shakeout, there was no appreciable change in loans against securities to customers' other than brokers and dealers, reported the Fed.

And the Reserve System in leading cities made a moderate gain in brokers' loans in recent weeks, while personal loans advanced during the week included flour, wheat, corn, pork, dry salted butter, bacon, cottonseed oil, coco, eggs, rice, hogs, sheep and lambs.

Earnings of large corporations, dividends and business news on the whole, continued favorable. Bank clearings for the third week of November which were 20 per cent above those of the same 1934 week and at the highest level since October, 1934.

The attention given various car-

rier stocks followed an announcement of a satisfactory arrangement between the New York Central and the RFC on the road's refinancing plans.

Bank of France Rate Up.

The official total of last week's carloadings, to be announced to-morrow, was expected to be considerably higher than earlier estimates.

Banking quarters were watching closely the French financial situation closely. Coincident with its report of a loss of \$33,000,000 francs in gold during the week ended Nov. 14, the Bank of France raised its discount rate from four to five per cent. The rate was boosted from three to four per cent last week, an effort to stem the outflow of gold tide.

Day's 15 Most Active Stocks.

NATIONAL CONFERENCE FOREIGN TRADE MEN ON CURBING ACCIDENTS ASSAIL U. S. SPENDING

Roosevelt Suggests That Roper Seek Advice of Widely Known Citizens.

By the Associated Press. WASHINGTON, Nov. 21.—President Roosevelt suggested yesterday that Secretary of Commerce Roper call a conference to consider ways and means of reducing the annual accident toll—100,000 killed, 9,000, 000 injured.

In a letter to Roper, Roosevelt said:

"I feel that the interest which we have been manifesting in the reduction of accidents on land and sea, and in the air, should take such immediate and substantial form as to put into action recommendations which we have been making."

"To this end, I suggest that you call in and confer with a group of patriotic and widely known citizens who will co-operate with you in formulating plans for the control of this distressed situation in our country. Accidents constitute one of our gravest national problems and it is important that we obtain wide co-operation and consider all possible counsel in applying the most efficacious remedies in the interest of preservation of life and property in this country."

"It is clear that jurisdiction over highways is almost wholly within the province of state, county and municipal government—not the Federal Government. Nevertheless, you can accomplish much by getting these other government agencies to proceed more actively than they have heretofore.

"I shall be glad to be kept informed as to your progress in this matter."

In making public Roosevelt's letter, Roper announced the names of a committee which will meet here within two weeks. The group will be headed by Senator Moore of New Jersey and will include Senators Capper of Kansas and McAdoo of California.

Roper outlined three steps that may be taken immediately: first, draft a plan for the obtaining of accurate statistics, second, determine the chief cause of accidents; and third, determine remedies and ways of putting the remedies into effect at the earliest possible moment.

"While the highway accident situation is overwhelming to the public eye," Roper said, "other types of accidents will not be ignored. It is estimated that during 1934 about 101,000 persons were fatally injured in the following types of accidents: Motor vehicle, 36,000; home, 34,500; public, 17,500, and occupational, 16,000. Additionally, 9,720,000 have been temporarily or permanently disabled, home accidents alone disabling 5,100,000 persons."

OBSERVANCE FOR CARNEGIE Central Library to Hold Open House Tuesday Afternoon.

The 100th anniversary of the birth of Andrew Carnegie, steel magnate who gave nearly \$65,000,000 for the erection of 2000 libraries, will be observed next week by the St. Louis Public Library as part of a nation-wide celebration. Open house will be held at the Central Library Tuesday from 2 to 6 p. m.

Carnegie gave \$1,000,000 to the City of St. Louis in 1901, which was used to cover part of the cost of building the main library and all of the cost of six branch libraries.

Apply This Once And Kill the Itch

A new preparation known as "Sit-i-Cide," being a liquid, thoroughly penetrates the skin, going into every pore, crevice and wrinkle where parasites hide, and kill every one of these parasites with one application, in thirty minutes. Sit-i-Cide is immediately effective in destroying parasitic itch (scabies) and is sold by all druggists at 60¢, or send direct upon receipt of price. Sit-i-Cide Co., Inc., Commerce, Ga.

Shot in Heart, No Sound Heard.

By the Associated Press. DENVER, Nov. 21.—Three persons were within hailing distance last night when Thomas Daniel Matteson, 62 years old, a druggist, was shot through the heart with a .22-caliber bullet. None saw an assailant. Only one heard what might have been a shot. Benjamin

F. Drinkwater, next door neighbor of Matteson, told police he was less than half a block behind Matteson when his neighbor fell. He said he heard no shot.

"How can a whiskey taste so smoothly keen and clear, and still sell at such a low price?" You hear that wherever a bottle of Hiram Walker's Twin Seal Straight Whiskey is opened. And the answer... 77 years of knowing how to bring forth good whiskey!

By the Associated Press.

SAN FRANCISCO, Nov. 21.—Sailors withdrew their demand today for guarantee of passage home from any port where labor troubles are encountered. The action was taken on recommendation of the Maritime Federation of the Pacific. A crew was supplied for the Dollar liner President Taft and men were promised for the other two ships tied up here, the Plow City and the Sage Brush.

In Washington the Department of Justice announced an anti-trust law complaint had been filed against the International Longshoremen's Association by Ellsha Hanson, attorney for the ship owners.

William J. Lewis, district president of the association, retorted that his organization has "just cause" to complain that "ship owners are violating the anti-trust laws."

"We can point to more violations

of the award (setting Pacific Coast Longshore wages, hours and responsibilities) than the shippers can," Lewis said in reply to employer's charges that the union was conspiring to interfere with interstate commerce and boycotting cargo from strike-bound Gulf of Mexico ports.

Longshoremen have refused to handle cargo loaded under strike conditions. Four ships were tied up at San Pedro because their cargo had been loaded by non-union laborers.

M-K-T Passenger Train Derailed.

By the Associated Press.

SEDALIA, Mo., Nov. 21.—The Missouri-Kansas-Texas Railroad's northbound passenger train No. 6 was derailed shortly before midnight last night at Lewis Station in Henry County, but it remained upright and none aboard was injured. All the cars were derailed and the tracks were torn up for a considerable distance.

The Emperor Goes Flying.
Japan's Plan Postponed.
Active Young Rothschild.
Messrs. Romulo and Morgan.

By ARTHUR BRISBANE
(Copyright, 1935.)

E THIOPIA'S Emperor Haile Selassie paid his first visit to the front, in his American plane, one of a small "flock." The royal chief pilot who flew the plane is a Frenchman, M. Corrigan. The Emperor has one German pilot named Weber, who in the big war was one of three pilots who shot down the famous French ace, Guyenne.

The Emperor on this occasion took no part in the fighting, inspecting lines from the air.

Addis Ababa reports successful resistance by the Ethiopians, including 150 Italians killed when Ethiopians used flaming gasoline. Several dozen Italian trucks are reported captured, and Ethiopia, elated, refuses to discuss "peace with concessions."

Peiping reports the Japanese plan to swallow a large part of North China, with 95,000,000 inhabitants, abandoned for the time. The 95,000,000 did not want to be swallowed and the mouthful is too big to be absorbed by force, now. There is no proof that the Mikado's Government had taken part in the plan; the "absorption" plan being a good idea of one energetic Japanese.

A little boy named Primrose, grandson of Lord Roseberry, great-grandson of Lord Rothschild, one of the pages at the recent wedding of King George's son, is a handsome but mischievous little boy.

In spite of their protests, he tickled the bridesmaids," according to official reports. This would interest his remote ancestor, the original Rothschild of Frankfurt, and his noble British grandfather, the Earl of Roseberry. The latter, when young, declared that before his death he would become Prime Minister, acquire a fortune and win the derby. He did all three, largely with the help of a Rothschild fortune that he married.

Carlos T. Romulo, editor and publisher of the Philippines Herald of Manila, is now in America, cheerful about the new presses that he has been buying for his successful paper. Speaking English perfectly, he tells you "I got my first lesson in English from a sergeant in the American army who kept his gun at the door while he taught us boys, and took his gun and back to the barracks after school."

Mr. Romulo says every Filipino appreciates what the United States has done for his country, especially in establishing schools. But Americans didn't know, he says, that schools, roads and other improvements in the Philippines were paid for by Phillipine, not by American taxpayers. Even the United States Governor-General of the Philippines gets his salary from Phillipine taxes.

Mr. Pierpont Morgan, returning from Europe, says recent British elections, approving a national policy and bigger navy, upholding the League of Nations, was "just what everybody expected."

He has no high opinion of the baby "bull market" that has begun to grow its little horns in Wall Street; in fact, he doesn't think bull markets bring prosperity. "They didn't a few years ago, at least they didn't for me," said he, "and they didn't for a lot of people."

Mr. Morgan, who knows what is going on in the world, doesn't expect war in Europe. He says Italy has all she can attend to for a time and the other nations do not want it." He reports business prospering in England "because the Government lets it alone and does not double up the taxes on it."

New Deal, please take notice.

Downtrodden American capitalists, told by professional "thinkers" that they exist, like the goose, only to be plucked, will read with pleasure these lines, carried in every edition of Peter Molyneux's paper, Texas Weekly:

"The productive capital invested in Texas is among the most valuable assets of the people, more important to them than to the mere owners of it, for the chief benefits of productive capital are social in character."

Fertilization is important to crops; irrigation changes deserts to productive farms; and "capital," which is frozen labor, is useful and should not be discouraged. Mr. Molyneux knows it, and so does every well-informed citizen."

In Michigan, Verner W. Main sweep every one of five counties in his congressional district, getting more votes than the four other candidates combined, and Mr. Main ran supported by the speeches of Dr. Townsend who would give \$200 a

Were Women Prepared for Emancipation?

One of Them Discusses Their Ability to Use Their Freedom.

By Elsie Robinson

AM a woman. I like being a woman . . . believe in my sex . . . have never wished to be anything else. And yet—I don't feel myself about my situation. Women, plainly, have never been on such a spot as they are today. Never so powerful and powerless at the same time . . . so cherished and despised . . . useful and useless . . . free and enslaved.

We modern women are, I suspect, in much the same fix as the slaves at the end of the Civil War. Then which history records no more tragic plight! There they were, our dusky brethren, with power and freedom suddenly thrust upon them—without preparation or knowledge of how to use it. An appalling disaster! If they could have realized their own unpreparedness they might have been saved. But they didn't . . .

They had to admit the obvious facts. They couldn't write or "figure"—couldn't perform delicate feats which the white man performed easily. But such feats they dismissed as tricks—easily learned and therefore unimportant. As to their fundamental ability to use their enormous new privilege, they had not the slightest doubtless.

And they were fiercely eager to use that privilege. They were so sick of the old tasks, so tired by the old discipline. They did not know that life must always be composed of tasks; be bounded by discipline. Liberty, to them, meant license. They thought they had been given a new world in which there would be no laws, no obligations—where they could have and could be whatever they wished merely for the wishing.

So they turned their back on their ploughing and picking; and went out on their wretched search for instant happiness. No chapter in our history is more pitiful than the record of that miserable, mud-died search.

It seems to me that we modern women are going through much the same period. After centuries of wifehood and motherhood, we have suddenly become individuals. A large and inspiring title—but just what does it buy us?

In the last 50 years we have achieved educational, political and industrial equality. But what does that do for us? Given books, we make brilliant records. Better records, frequently, than male students. A far more articulate showing than the males. But does that mean anything? Or is it merely the facile chattering of priests?

Given the vote, we use our political power ruthlessly. But, again, does that mean anything? Does our use of the vote prove that we have real power in ourselves—real balance, control, judgment? Or are we monkeys smashing things with tack hammers?

We feel—by countless devices we have been made to feel—that we are "too good" for the stupid old task of bearing babies, cooking, sewing, scrubbing, making homes. We demand more brilliant destinies than those which do not provide them. But what are these more brilliant destinies? And what preparation have we made for them?

With all our privilege and power, just how do we stack up, we modern women? What strength and wisdom do we possess within ourselves—of our own creation? How reliable, how valuable are we, not by legal franchise, but in our own right? How useful is the work which we perform?

Are these pay envelopes which we so proudly wave, actually more important than the cradles we once built? The homes we once built? Do they secure for us a more honorable position in the status quo—or pay us personally larger dividends in peace and pride?

I'm a woman and glad to be one. Yet I'm bewildered. I listen to my brilliant sisters with their everlasting chatter—boasting about their ability—bleating about their wrongs—endlessly analyzing themselves and hurling themselves into the spotlight and I wonder.

All dressed up, girls, and making a wonderful show—but WHERE DO WE GO FROM HERE?

DELICIOUSLY DIFFERENT!

IF YOU ASK My OPINION

By MARTHA CARR

My Dear Mrs. Carr: I HAVE a cousin who is very dear to me. She has a friend who asked me to go out with him. I refused because, while he is not a steady boy friend, she likes him a lot. She has told me that she doesn't love this first one, but if anyone looks at him, she has a fit.

You see, Mrs. Carr, I am very much in love with him and I think he must like me a little or he wouldn't ask me to go out with him. But I don't like to make a play for him, because he is my cousin's friend and I should not want to break them up if I thought they cared.

What I want to know is, if you would you go out with him when he asks? I want to do the right thing. MISS TROUBLE.

It is very nice of you to be so loyal and unselfish; I hope your cousin will reciprocate. I should take it for granted that she does not wish to monopolize every boy she knows and is not the kind to be greedy with you. If she shows any feeling or disapproval, tell her you thought her interest was centered upon the other one and you feel you have some rights with friends as well as she.

Dear Mrs. Carr: WOULD you kindly tell us what will take coal oil stains out of a rug? M. S.

The place will have to be scrubbed with soap and water. But the safest plan is to buy one of the commercial products (the names of which I could not use in the column) which are prepared for the purpose of scrubbing carpets and rugs.

Dear Mrs. Carr: HAVE in my possession an old newspaper, "The Sun," printed in Pittsfield, Mass., Dec. 30, 1800.

It contains a report of the convention between the French republic and the United States of America, also the return of votes for President of the United States, electing Thomas Jefferson, and other interesting items:

Do you know where I can find out if this paper is of any value? MRS. A. M. G.

You may be able to get some information about this, if not an estimate, at the Mercantile Library or the Main Library. Perhaps the best source of information would be Library of Congress. Herbert Putnam, Librarian. This library contains important collections of American newspapers.

Dear Martha Carr: HAVE been going with a boy about four months. Should I send him a Christmas present or just send a greeting? IN DOUBT.

It would not be good taste to send this boy a gift; just send a greeting card.

My Dear Mrs. Carr: WONDER if, among your readers, there are some who might help my need for clothes, especially a winter coat, size 40.

Mrs. Carr, we are not on relief, but my husband's wages are so small that it takes it all for the bare necessities. Besides this, we have a big hospital and doctor's bill which we are paying. I make over clothes for the two small children.

This is just a small village, and no work for a woman to earn money. Mrs. Carr, I don't want to ask for clothes for nothing, but I have pink and white peonies and five kinds of iris which I shall be glad to exchange for clothing for myself or children. I am inclosing names of three people for references. PATERNAL MOTHER.

Yes—but we were different."

Why Not?

Were you? Times may be different. Manners may have changed some. But human nature, no. Nature claims her own. What did your daughter want to do and must? Why not? If you do not associate with boys was secret. There were others. There was nothing to be ashamed of in these associations save a bad conscience. It is bad only if we make it bad.

I have a notion that if you were to speak to your daughter in a friendly way, if you were to talk to her as you would to an intimate friend of your own age and generation, she would go along with you. The child is lonely and afraid. She is looking for a way of life. Boys are part of that way. If you make them a matter of fact affair she will do the same. If you share her interest in them and help her keep her secrets she will confide in you. Let her bring her school friends into the house.

"What! Those creatures she was with yesterday! I wouldn't let one of them across my doorstep. The miserable go-for-nothings. If I ever see her talking to one of them JUST WONDERING.

Dear Mrs. Carr: IF YOU wish to locate a friend in some State, to whom would you write in order to get a response?

If you wish autographed photographs of your favorite movie stars, where would you write for them? JUST WONDERING.

Write Police Department or Bureau of Vital Statistics, in the city in which you think he lives.

Write these stars in care of their producers or the theaters in which their pictures are appearing.

Take Helen's friends in. You will discover that the good sort will stick and the other kind will drop out. Home is a good place for the sorting process, far better than the dance hall or the movie.

Letters intended for this column must be addressed to Martha Carr at the St. Louis Post-Dispatch. Mrs. Carr will answer all questions of general interest but, of course, cannot give advice on matters of a purely legal or medical nature. Those who do not care to have their letters published may enclose an addressed and stamped envelope for personal reply.

You see, Mrs. Carr, I am very much in love with him and I think he must like me a little or he wouldn't ask me to go out with him. But I don't like to make a play for him, because he is my cousin's friend and I should not want to break them up if I thought they cared.

What I want to know is, if you would you go out with him when he asks? I want to do the right thing. MISS TROUBLE.

It is very nice of you to be so loyal and unselfish; I hope your cousin will reciprocate. I should take it for granted that she does not wish to monopolize every boy she knows and is not the kind to be greedy with you. If she shows any feeling or disapproval, tell her you thought her interest was centered upon the other one and you feel you have some rights with friends as well as she.

The proper place for this notice is in the "Lost and Found" column, Want Ad pages.

Parents Are Forgetful of Their Youth

They Fail to Associate Children's Impulses and Their Own.

By Angelo Patri

MY HELEN has done the most dreadful things. She has associated with boys and girls who belong to the lowest strata of school, and to do that she has cut her classes. She has been to the shows and to dances with them and called about it, and called me an old prude into the basement. I am disgraced, heartbroken. Such a deceitful child. I have been careful to select the young people she is to associate with, and here she is going around with a lot of riffraff. Why should she want them? Why does she seek low company? She knows better.

Do you know where I can find out if this paper is of any value? MRS. A. M. G.

You may be able to get some information about this, if not an estimate, at the Mercantile Library or the Main Library. Perhaps the best source of information would be Library of Congress. Herbert Putnam, Librarian. This library contains important collections of American newspapers.

THE STYLES CHANGE for COCKTAILS and DINNER

Shorter Skirts of New Mode Eliminate Necessity for Varying Attire

By Sylvia Stiles

THE clothes problems of the busy woman have been reduced now that Dame Fashion has decreed that shorter skirts are permissible for the cocktail and dinner hours.

A dress that once would have been called a typical afternoon costume holds the center of attention for evening and dining. Donning it soon after noon, the well-dressed woman can dash from bridge to cocktails to dinner and the theater without taking time out to change.

Some of these new frocks which bring footwear into greater prominence are street length, others reach to the ankles. The most popular length is half way between, or what has been considered as the "one and a half" way between, or what has been considered as the "one and a half" way between, or what has been considered as the "one and a half" way between,

one of the current season. Metallic materials are used to best advantage and regardless of how simple a frock is made, the glistening fabric assures its success. Metallic or fringe-trimmed crepes and velvets are others that have fashionable possibilities in the creation of these shorter skirted dresses.

Sleeve lengths vary according to

one's needs and preferences. The short-sleeved frock is perhaps the most arresting because it is unusual to see it appearing informally in the winter. Elbow length is popular, especially if the dress is created in the tailored manner. The short dinner frock which has only a cape or deep bertha to cover the shoulders is noted occasionally and gets credit for starting a new trend.

One of the most youthful models in an afternoon dress that can be worn in the evening is the velvet frock sketched at extreme left. It is black, the fabric being of the non-crushable variety. Bias crepe bands combining green, fuchsia and bright blue form a wide belt which fastens with three crepe rosettes and a bow which trim the petal-shaped collar. The dress opens at the back of the neckline, where the collar slopes down to a very

narrow piece in contrast to the sketch at center. The fabric is gold lame, which is enhanced by the emerald green velvet scarf that is tucked into the neckline. This frock is designed along shirtwaist lines, large covered buttons on the skirt at the waist fastened either side of the front, and the bell-shaped sleeves set into high pointed shoulders. The skirt is cut to accentuate a frontal flare.

The second dress illustrates the vogue of very short sleeves and the importance of short trimmings. The fabric is black crepe, to which the knotted fringe is applied in the form of flounces. These flounces extend downward in points at the center front and up in points at the back. One row is applied to the front of the skirt being cut on the bias and the rest with the gold threads crosswise. The blouse has a pointed front section. Graduated tufts are placed at either side of the front, these extending up to form a flaring collar.

Anyone who seeks a glistening frock that will do justice to the merriest occasions will do well to choose double boiler, remove ring and add one cup sugar, one-half cup lemon juice, two stiffly beaten egg whites. Turn into sherbet glasses and chill thoroughly before serving.

A DOCTOR
TALKS OF
HEALTH
By Logan
Clendening, M. D.

WHAT kind of a person will make the most intelligent school child? Is there any way to correlate the physical health of the child with his work in school?

Well, a number of school physicians seem to think so. Working on the basis of anthropometric studies, these lead us to the conclusion that the more stocky the lady is, the better the mental capacity of the individual.

Many years ago Dr. Clendening Porter founded a study of St. Louis school children that "Children who possess more than ordinary power of mental labor as measured by their progress in their studies, are heavier, taller and larger in girth of chest than their less gifted companions of the same age."

Francis Galton, in his book, "Hereditary Genius," pointed out that men of genius tend to be well developed physically. "A collection of living magnates in various branches of intellectual achievement is always a feast to my eyes; being, as they are, such massive, vigorous, capable looking animals."

An interesting study is that of Gowin on a number of American executives. He found, for instance, that bishops were 18 inches taller and 17 pounds heavier than preachers in small towns.

The study of school children is based on the anatomical fact that the normal healthy adult chest is flat. The chest of tuberculous, contrary to common belief, is deep.

The determinations of the thoracic index are made by measuring the depth of the chest and the width. At birth the chest is almost round, but by the age of five 87 percent of the flattening out process has already taken place. Children from better environmental districts are not taller and heavier, but have a flatter type of chest.

Conclusions after studying nearly 15,000 Minneapolis school children are:

1. The flat-chested children are taller and heavier than the deep-chested children.

2. There appears to be a definite correlation between the shape of the chest and intelligence in children.

3. The flat-chested children have on the average, better school grades.

Therefore it is evident that the flat-chested children are, on the average, taller, heavier, and display a higher degree of intelligence.

EDITOR'S NOTE: Six pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin for each, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendening, in care of this paper. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene" and "The Care of the Hair and Skin."

If a newspaper is spread under the table on which the food chopper is screwed, all spilled bits may be picked up at one time and save labor and floor.

LOVELY LITTLE FOOL

The Newlyweds Go to Talk to Libby's Father — Marshall Is Subject to Conflicting Emotions.

CHAPTER TWENTY-TWO. EGINALD, the Stocktons' English butler, opened the door for Libby and Marshall that noon.

"Your father is in his room, Miss Libby. He asked me to say that you were to come up there before you saw your mother." Reginald stared at Marshall, his enigmatic eyes not lighting up, his expression not changing. But the brain behind that inscrutable mask was taking in the tall, dark, young man that Miss Libby had married. He was thinking: "Two of a kind if ever I saw them. With her temper and tantrums and flinging her belongings about when she's angry and this man's insolence they'll be at each other's throats in a week!" And Marshall, pulling off his gloves and handing them to Reginald with his hat and coat and stick, said in his mind: "If there's any person more supercilious than an English butler I'd like to know what it is!"

Marshall watched Libby gracefully climbing the stairs and listened to the clatter of her spiked heel on the landings. Then he turned down the four broad marble steps into the drawing room. For the first time in his life, Marshall was not conscious of the exquisite furnishings of this room. He saw only the hundreds of flowers that had arrived that morning for Libby's and Betsy's debut and which Reginald had arranged around the room with British artistry. He saw roses and pinsettes, red as blood, in prodigious baskets tied with saucy red satin bows. He saw carnations, orchids, snapdragons, bright and colorful as spring itself, in slim, silver vases.

There were bouquets of roses, too, every color, every variety—American Beauty, tea, talisman, bride's-eyes across the mantel, piled on tables, tops, on tabourets, and one side of the room had been decorated to the high-vaulted ceiling with chrysanthemums, ferns as fluffy as tulip, polka-dot palms. A backgroup before which Mrs. Stockton and Libby and Betsy were to have posed. They were to have posed. They wouldn't now, of course, after what had appeared in the morning papers.

Still he had been unable to resist Betsy. Her light, cool touch had set him on fire; her lips, her golden hair, her wide, trusting blue eyes and her husky little voice had been fuel to that fire. Despite himself and his wild, burning ambitions he had fallen in love with her and had gone so far as to become secretly engaged to her. But not without cursing all the fates for making him mad about a girl who had less than nothing to offer him, who could further him not one step in his life.

Like a fool, he had thought at first that he could achieve the impossible. That through Libby he could assure Betsy of social prestige; he had a \$10,000-a-year job for himself. Unexpectedly, Libby's friendship had changed to him. She had thrown herself at him. And because all his life he had intended to marry for money and position if he could—a girl who was in the Social Register, whose father was in Bradstreet's—and because Libby had fascinated him he had married her. He had married her loving Betsy as much as he was capable of loving anyone.

Edward Stockton rose slowly from his desk, tall and thin with gray hair, his eyes beneath shaggy brows. A man whose broad shoulders filled the cobalt silk dressing gown. He took Libby's emerald wrap and pointed imperiously to a chair. She had thrown herself at him. She had known all kinds of girls—cheap ones, swank, high-tail ones. She had met the made love to them, dropped them. . . .

Each time that he had had a date with Betsy he had sworn it would be the last. Everything in him had rebelled against her background, everything in him had fairly glowed through her skin; she danced to music no one else ever heard. Still, she was sane and practical. Marriage to her would be a glamorous and glorified state. Anything else would have to be of.

She was in his blood, flowing along his veins like liquid fire. She would always be. He knew that now. She had something, a sweetness, a helplessness, an appeal that he had never found in any other girl. And he had known girls. He had known all kinds of girls—cheap ones, swank, high-tail ones. He had met the made love to them, dropped them. . . .

Now he had just what he had told himself over and over he wanted—social contacts, influence, money, the background that could mold him into power, prominence and wealth. He was startled therefore to find himself unhappy, to himself trying to reason out a way where he could have all this and Betsy, too. Other men managed situations like this. They had wives whom they married for one reason or another and at the same time enjoyed a life, spare and secret, from the public. It was going to be difficult. Betsy was idealistic, she dreamed beautiful things that fairly glowed through her skin; she danced to music no one else ever heard. Still, she was sane and practical. Marriage to her would be a glamorous and glorified state. Anything else would have to be of.

smiling fringe is one of the newest trimming or daytime, dinner and formal frocks. College have semi-low backs that can be worn nicely to evening.

DOORE GALLAGHER

The Bears Agree
That the Crow's
Plan Is All Right

By Mary Graham Bonner

CHRISTOPHER flew off, cawing as he left. "I hope I haven't delayed you from your food walk."

"No, growl, growl, you haven't," they shouted up to him.

"I suppose we shouldn't do such a thing," said Jelly Bear.

"I suppose not," said Honey Bear.

"It's a wicked thing to do," growled Jelly Bear.

"Very," agreed Honey Bear.

"We haven't any right to what doesn't belong to us," said Jelly Bear. "Although, of course, lots of the jams and jellies were made from berries they found around the countryside—berries that were free for all."

"That's so," agreed Honey Bear. "After all, Grandma Grouchy Galump merely put them up in glass jars after cooking them."

"We might just sample it and tell her we wanted to congratulate her on her fine cooking," said Jupiter Bear. "She ought to be complimented if the bears approved."

"She ought to be," said Jelly Bear, "but I doubt if she would be."

"I'll tell you what we'll do," said Honey Bear. "I've got some fine plans in mind. Here let's take a few of these nuts and give them to us as a present. Then we'll sample the jams in exchange."

"Are you going to tell her what you're doing?" asked Blacky Bear.

"No," said Honey Bear slowly—knowing she was just making up excuses to herself that it would be all right to take some jam. She knew her plans were wicked ones, but she tried to fool them all.

"They are all alike in spirit.

Increased Auto Accidents
The Day on the Radio

Let's EXPLORE Your MIND

By ALBERT EDWARD WIGGAM, D. Sc.

See Whether His Opinions Agree With Your Own

AUTHOR'S NOTE: These answers are given from the scientific point of view. Science puts the rights of organized society above the rights of individuals.

William Junkin Cox shows in "Why Automobile Accidents?" that since 1926, automobiles in the United States have increased in numbers 11 percent, but accidents have increased 55 per cent. Better roads and better machines have led to high speed and high speed has led to more accidents.

Certainly, the only reason we do not do so is that people have not yet been taught in home and school the New Patriotism for which Henry Curtis of Ann Arbor, pleads in an eloquent recent article in School and Society. He says, in effect: "A man drafted into war thereby becomes a hero in nonsense. The custom of placing honor rolls of all ex-soldiers in public buildings is untrue to those who did equal service at home, both men and women. We need fewer monuments to soldiers and more to defenders of public morality and honor. We need to develop as much hatred of the tax dodgers, bribees and corrupt politicians as we do of the Benedict Arnolds. They are all alike in spirit.

That's so," agreed Honey Bear. "After all, Grandma Grouchy Galump merely put them up in glass jars after cooking them."

"We might just sample it and tell her we wanted to congratulate her on her fine cooking," said Jupiter Bear. "She ought to be complimented if the bears approved."

"She ought to be," said Jelly Bear, "but I doubt if she would be."

"I'll tell you what we'll do," said Honey Bear. "I've got some fine plans in mind. Here let's take a few of these nuts and give them to us as a present. Then we'll sample the jams in exchange."

"Are you going to tell her what you're doing?" asked Blacky Bear.

"No," said Honey Bear slowly—knowing she was just making up excuses to herself that it would be all right to take some jam. She knew her plans were wicked ones, but she tried to fool them all.

"They are all alike in spirit.

That's so," agreed Honey Bear.

"I'll tell you what we'll do," said Honey Bear. "I've got some fine plans in mind. Here let's take a few of these nuts and give them to us as a present. Then we'll sample the jams in exchange."

"Are you going to tell her what you're doing?" asked Blacky Bear.

"No," said Honey Bear slowly—knowing she was just making up excuses to herself that it would be all right to take some jam. She knew her plans were wicked ones, but she tried to fool them all.

"They are all alike in spirit.

That's so," agreed Honey Bear.

Can Grasshoppers Eat Experts?

PIERRE, S. D. WHEN the grasshoppers was running the State two years ago, the experts figgered that arsenic poisoning would do away with 'em. They mixed it with bran and sent it out to the farmers, who stored it in their granaries waiting for the right time to put 'er out.

It killed everything but the hoppers and is still in the soil and granaries. About all most of the farmers have left is granaries and nobody to buy them.

Trouble with the experts is they figger only one thing at a time.

FEDERAL RELIEF SURVEY REFUTES CLAIM AAA AIDS SHARE-CROPPER

Government Benefits Received by Tenants Go to Pay Debts, Chiefly to Landlords — Sometimes Force Is Used.

HELP REGARDED AS 'DEMORALIZING'

Property Owners Wish to Keep Croppers Subordinated and Therefore Oppose Aid, Study Points Out.

By MARQUIS W. CHILDS, A Staff Correspondent of the Post-Dispatch.

WASHINGTON, Nov. 22.—The Federal Emergency Relief Administration has made a study of the plight of tenants and sharecroppers in Alabama which belies the claims of the AAA.

The study shows that in a large percentage of cases the AAA benefit payments intended for the tenants and sharecroppers go instead to the landlords. In many instances sharecroppers are forced by landlords to turn over the payment that is supposedly theirs under the Government's crop reduction program.

AAA officials have insisted that the sharecropper has benefited from the reduction program, denying all charges that the "benefits" of the program were not helping the mass of the dependent tenants and sharecroppers. This is the first time, however, that an official Government study has disproved the claims of the AAA.

The FERA study supports recent statements of economists who have declared that tenants and sharecroppers in the South were hardly better off than "slaves," and that the system of cotton tenancy was in actuality a system of serfdom. The study, prepared by Harold Hoffsommer, professor of sociology at Alabama Polytechnic Institute in Alabama for FERA, says it is virtually impossible for the dependent sharecroppers to rise in the social scale. The study was based upon interviews with farm families in 10 typically rural counties in Alabama.

In Debt to Landlords. Pointing out that the majority of tenants and sharecroppers are constantly in debt to their landlords the study states:

"As a result of this general pattern of debt relationships, governmental assistance has been of little help to the tenants in a majority of instances. In approximately 60 per cent of the households which received such assistance it was found that all of the money received had been immediately used to pay debts and that the landlord was the chief creditor. In approximately 60 per cent of the cropper households receiving such assistance a part or all of it was immediately paid to the landlord, and roughly one-third of these cases the relief family claimed that the payment had been forced. The extreme in this matter was reached among the Negro cropper households, more than 86 per cent of whom reported paying a part or all of their governmental money to the landlord and in nearly one-half of all the instances claimed that the payment was forced."

Recently a Negro delegation from Alabama charged that a reign of terror existed in certain Alabama counties as a result of the attempt of Negroes to organize a sharecroppers' union. The delegation told Dallas Dort, head of FERA's investigating staff, of violence involving six lynchings but Dort replied that this was not within the province of FERA investigation. He said, however, that he would investigate reports that relief labor was brought in to pick cotton when union sharecroppers struck for a wage of \$1 a day.

Relief's 'Demoralizing' Effect. "Although no data are available on the subject," the report states, "it is fairly certain that a considerable number of unscrupulous landlords used Government relief as a means of furnishing their tenants with goods which could and should have been furnished by themselves. On the other hand, nearly 40 per cent of the landlords who had tenants on relief were opposed to governmental aid for their tenants on the grounds of its demoralizing effects upon them. It therefore seems likely that the
